Dear Katya,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

As you enter your 59th year you appreciate the significance of your age on the threshold to the sixties, with the realization that your greatest achievements may well lie behind you, whilst the future both professionally, economically and in terms of relationships is dependant on the structures you have already created. Yet this very realization has a settling affect; you are too wise to struggle against the inevitable, and fully aware that any decisions you make now will have effects that can last the rest of your life. It is at this age that you really can plan how you would like your future to be, using your knowledge and experience of the society of which you are a part, to maximize the benefits that the future can bring, and minimize the limitations. You have a natural capacity to investigate hidden and secret material in your own psyche and in the world. An awareness of life as a process of constant death and rebirth brings psychological wisdom, gained through ruthlessly pursuing authenticity and emotional truth, whilst nurturing an understanding of the demons other people struggle with. This will reflect itself in an influential position socially and a large network of friends. The current year will bring an expansion of your influence, major social events, and a general increase in influence and popularity. Radical experimentation can be left to those who follow in your footsteps, but if your economy is strong, and your professional foundations firm, you can easily build further on what you have achieved.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand

on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you continue working on a new framework for your personal development by defining the path ahead. There are a lot of challenges, delays and obstacles to be overcome, but now you know what you want, and you are prepared to work long and hard to set in motion your new plans. In the past, initiatives tended to dissolve before being put into practice, because you were trying to achieve outdated goals. Now initiatives really kick in and gain traction. These new influences started growing around December - 2017 and will ebb out around March - 2020. You are setting the scene for a whole new epoch of personal development. The time has come; other people need to accept that your greatest responsibility is now to yourself, because unless your life is on a strong footing, and unless you are following your own mission, you cannot be strong for others.

Opportunities for Success

With professional achievements and an increase in status behind you and many career goals achieved, you are ready to capitalize on recent success by consolidating your assets and expanding your influence socially in the period from October - 2017 to November - 2018. Generous friends and mentors smooth your path and give you access to the highest places, and you harvest wisdom and influence at social gatherings.

After a period of expansion and satisfaction in your social life, your search for meaning and understanding goes within, and in the period from November - 2018 to December - 2019 you discover the spiritual riches that can be attained through seclusion and introspection. This is a time when learn how man and cosmos are interconnected, when you feel empathy and solidarity for fellow human beings.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 59. Three very important issues that make this year special are:

- A period when you are put under considerable psychological pressure and there may be power battles too, but this only serves to awaken the samurai spirit within you. This leads to a new recharged sexual life and a positive transformation of your

work situation.

- You are energized, courageous and willing to take a risk. Your conviction that you are right cannot be deflected, and this can lead you into confrontation with people who have a different opinion, or to people who feel bulldozed by your gung-ho attitude.
- You embark on a process of mental experimentation, gaining familiarity with new communication technologies or mental developments methods. This is a time when you encounter new languages and travel considerable distances to ensure that you are where it is all happening.
