THE ESSENTIAL YEAR REPORT...

At the turn of the 21st century, there were 6 billion people on Earth. No two of them were born on the exact date, time and place - everyone has a unique horoscope. This horoscope reflects personal characteristics that the individual has chosen to work with in this life. He or she meets parents, brothers and sisters, friends, teachers and finally partners, who evoke an evolutionary development for the soul.

Each individual has then a unique life that can be mapped astrologically according to the planetary movements after birth. World of Wisdom's Essential Year Report synthesizes three astrological methods to map the life journey of the individual:

- Progressions, which reflect a personal evolutionary, or karmic pattern present at birth
- Transits, which reflect collective trends that evoke specific behavior in the individual
- Solar Returns, which are horoscopes calculated for each birthday, showing what happens to the individual on the year in question. (For unknown birth times and yearly horoscopes starting on days other than your birthday, another astrological technique - horary - is used.)

This synthesis is complex. With 12 signs, 12 houses and 10 planets (with Sun and Moon) there are 1440 simple combinations. When the connection between planets are taken into consideration (aspects) and then transits and progressions, there are several hundred thousand combinations. Essential Year Report works on several thousand of these, the rest needs to be filled in with your memory and creative visualization.

This reading describes your own evolutionary journey. To understand it fully you need to understand the talents and challenges that the planetary positions at birth represent. The first part of every section of Essential Year Report explains therefore what you can expect in life based on who you are as a person. It is crucial to realize that what happens during the course of the life is constrained by these personal factors. If your love-life promises great happiness, then later trends will trigger this potential... and vice versa.

If you wish to know more in detail about your personal character and how to get the most out of your life, then our Birth Horoscope Interpreter will go into this deeply. The Essential Year Report is designed to map out the timing of events and the fulfillment of your destiny.

INTRODUCTION

During the course of your 28th year, there is the sense that you have achieved a lot, been through a lot, yet the answers are not to be found in these achievements and experiences. It is difficult to hold on to the structures you have created, and you are not even sure you want to. You may ask yourself just how much you have been conditioned to go along the path you have taken, and you may feel that some of the steam has gone out of the machine. A positive transformation is called for at this time, and it is wise to take a hard look at what it is in your life you are tired of, and eliminate it. This can be quite an exhausting psychological process, and there is a tendency to go to emotional extremes. Some anxieties are connected with a generational influence that relates to a range of taboo subjects, not least sexuality. At this time you may wish to examine emotional or sexual habits that may be too extreme or manipulative. More specifically you become aware of ideological convictions that dominate your thinking, which perhaps have their roots in anxiety about the meaning of existence. This is an excellent period to eradicate extreme views and form healthier views.

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life the major challenges are in the area of group relationships. This is an influence that starts growing around November - 2016 and will ebb out around December - 2018. Integrating yourself into a group awakens fears about how well you come across to your friends and colleagues, and there are times when you can feel shy and a little clumsy, as you find your feet. Concentrate on your duties and commitments to others, and don't be afraid to take on extra responsibilities. If you feel you have to shoulder more burdens than most, think of it as a kind of apprenticeship. As time goes by you become irreplaceable and respected. Indeed you may find yourself assuming a position of responsibility with a lot of your friends relying on you. This can be a time when you finally enjoy the fruits of your professional efforts – both financially and socially – so make the most of the prestige and success you gain.

After a period during which relationships prospered and your circle of social influence expanded, you are ready to delve deeper into the psychological dynamics of intimate personal relationships in the period from November - 2015 to September - 2017. A deeper understanding of and empathy for others is developed, enriching your emotional and erotic life. You receive blessings both in the form of emotional generosity and material good luck.

From most of the period that spans September - 2017 to February - 2018 you have a yearning to expand your intellectual horizons either through study or travel. This is an optimistic period when you ask important questions about the meaning and direction of your life, and gain considerable philosophical insight. You will meet wise mentors who broaden your attitude, and help you define your attitude to moral issues, right and wrong and political or cultural matters.

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 28. Three very important issues that make this year special are:

- There are opportunities for expansion, travel and growth and you meet people who can exert a powerful influence on your thinking and ideas. What you convince yourself of at this time may prove to be unwise in the long term, so avoid overestimating your chances.
- Your heart is opened and there is a growing desire for both romantic satisfaction and material comfort. Appetites are strong – so strong that they can lead you astray. Ethical principles and moral consideration tend to recede into the background when desires rule.
- You have experiences in your love life or your economy that though exhilarating or romantic can quickly

turn out to be expensive. Judgments are likely to go against you because of extravagance or ethical lapses. These along with other influences will be examined later in the report.

Life Path

INSIGHTS AND EXPANSION IN YOUR LIFE

There are many spheres of human activity which are active at any one time, but each year there will be a focus on a particular area of your life that will absorb you more than anything else, and be at the center of the events of that year.

There is a suggestion that you are in a transition process in your personal life this year, as you wind up interests connected with the past and investigate future potentials.

This transition process could for example be connected with a need to emerge from exhausting and uncompromising emotional engagement and to expanding horizons intellectually or geographically, enjoying philosophical humor rather than wallowing in suppressed feelings. The general trend is from obsessive intensity to perspective and wisdom.¹

The theme at the age of 28 is in learning to handle the intense emotions that arise in your relations with the world in general and partners in particular. Learning to handle feelings of jealousy and the resulting need to control is part of the challenge of the time. It is all about sharing on every level, particularly erotically when the ability to open up and show vulnerability is paramount. Powerful feelings fuel a psychological transformation in the months ahead.²

This theme awakens your need to imprint your ideas and opinions on others. There may be a lack of sensitivity in this, as your desire to convince and persuade can fail to take into account the opinions that others have. Listening is just as important as talking.

³

Emotional intensity is a quality that pervades the year, and powerful feelings have to be reined in as you seek erotic intimacy and authenticity in your relationships.

You are not impressed with material goals or ambitions at this time, but seek rather to explore the spiritual roots of your life, or involve yourself in projects that enhance your creative sensitivity. There will be times when it all seems hopeless, and there will be situations which overwhelm you emotionally, but you are touched in the areas of heart and soul which awaken your compassionate nature.

This is an influence which is expressed in your home and family life, and your feelings and attachments in this area will affect you profoundly. Building up a base and a home have high priority; likewise you strive to resolve an array of family issues that arise at this time. The answers to many questions can be found in examining your roots, heritage and upbringing.

You are empowered by the following.

You are likely to be involved with someone who is charming and loving, and who smoothes your path and

brings you many pleasures. You may receive financial support or encouragement from this person, or the more intangible benefits of romance.⁴

Relationships are facilitated by family influence during the course of the year; you meet potential partners at home or locally, and your thoughts center around building a home.⁵

There may be a particular disability or problem that can be a painful or irritating factor, which makes it essential to develop skills that enable you to repair what is broken or heal what is unwell. Contact with a shaman or healer can bring insight.⁶

This is connected with a parent, your home or family, where a pain or vulnerability may bring important emotional lessons.⁷

Certain challenges arise.

You meet resistance to your agenda at all stages, either from authorities without, or lack of confidence within. Even in the face of failure you need to make a supreme effort. This is a test of your nerve and determination, and it builds up your strength.⁸

As self-confidence is rather low, and pressure on you considerable, you need to call on your reserves of patience and perseverance.⁹

There are unique opportunities and challenges affecting you personally right now, which can result in significant lifestyle and relationship changes or modifications. If you would like to see your life going in a different direction, now is the time to take the reins and choose a path which is uniquely suited to you, as described by the influences below.

Opportunities with a price

Matters come up in your personal life right now, which challenge you to take a stance connected with what you consider to be right and acceptable, and what you consider to be wrong and unacceptable. This is particularly strong in the period from September 2017 to August 2018. This can be an exciting and exhilarating time, and you will certainly learn a lot and gain wisdom, but there are moral issues that affect you and your relationships, and your judgment may not always be right. Your appetite for life is strong, and you convince yourself that life must be lived to the full. You are likely to travel more or meet cosmopolitan people who have considerable influence on your thinking.¹⁰

This initial section of the report is connected with your lifestyle and direction, and the factors described above modify this direction as you respond to outside influences and your own inner evolutionary process. Of these factors the most significant during the age of 28 are:

- This is an exhilarating time when opportunities for personal growth and meetings with influential people bring a tendency to be over-optimistic or to overreach yourself.
- a time of intense feelings connected with intimacy and sexuality which prompts psychological insight and a deep transformation.

Career

SUCCESS THROUGH BUSINESS AND COMMUNICATION

Every year there is a particular focus on your goals and ambitions, and a need to reformulate your mission in life and what you want to achieve. It is equally important to have a good foundation to build your successes on in terms of home and family.

A major theme as regards career during the age of 28 is to learn how to fit into a team, cooperating together to make your professional life more efficient. This is a time to dedicate yourself to the principle of service rather than self-promotion. So much more can be achieved when everyone puts their shoulder to the wheel for the good of the community.¹²

This theme runs counter to other priorities you may have about the direction your professional and your family life is going. There are times when it can be necessary to go off at a tangent to realize a professional agenda.¹³

You manifest your organizational skills and are keen to work cooperatively with others, which you will do in a specific fashion and in a specific area.

To attain success you need to define your ambitions, make a plan and go for it. It is all about hard work and responsibility. You can expect difficulties and setbacks, but you will overcome them through persistence and determination.

The main area to concentrate on this year is on establishing a firm foundation for income creation. If you play your cards right your income will increase, and you need to put every effort into this. It is all about making the best use of your resources.

You are empowered by the following.

Career goals undergo an intense transformation process, probably as a consequence of power struggles. People in authority tend to be autocratic and secretive, and you too may find you can best attain success through working behind the scenes. It is a time to throw out the old and make deep-seated reforms. Excellent for psychology and therapy.¹⁴

This specifically activates a need to transform something in your material life, shedding attachments that bring economic loss, and working intensely on financial reform.¹⁵

Your emotional security is invested in career initiatives now, which means that your mood fluctuates a lot on the swings and roundabouts of fortune. A welcoming environment, and caring people who support you, mean everything. Advances come when you look after the security needs of others. It is a good time for acquiring property.¹⁶

This awakens feelings centered on the security represented by material possessions, bodily satisfaction,

and financial security.¹⁷

The career section of this report explains influences in the current year that can cause you to adapt or change professional goals, and make use of opportunities that come your way. Overall, in the area of family and career the major developments you can expect are:

- a time when your personal agenda is subsumed by the need to integrate your talents and efforts for the benefit of others.

Personal development

WISDOM AND EXPANSION

During the course of the year you will have a number of character-building experiences, which help you grow and develop as an individual. It is rare for any difficulty to last longer than a period of about eight months, and if you regard challenges that arise as a test that helps you become stronger, then it will be relatively easy for you to overcome them. Similarly, when events boost your confidence, it is pays to take advantage of the limited time available to capitalize on your good fortune.

With your sun in your birth chart in Aquarius and in the 1st House this relates to your need to express a vision for humanity and be part of a network, in connection with projecting yourself in the world.

An important feature around the age of 28 is your need to expand your radius and outreach through local contacts, travel, schooling and education generally. This is an excellent time for getting your ideas across and for inspiring contact with charismatic teachers. What matters now is self expression and acquiring the mental tools to optimize your communication skills, and this means that you voraciously acquire knowledge and become a key figure in bringing people together in a network. It is a matter of personal pride now to demonstrate your mental skills.¹⁹

Certain key influences will present challenges and opportunities to you now as regards your development as an individual. Below you will find effects described, which you will feel more or less powerfully, evoking actions that enable you to stamp your signature on events.

Overreaching yourself

The period from September 2017 to August 2018 is a time when you encounter intellectual authorities who are in a position to make judgments on your character, and if you over-estimate your strength or capability, this judgment can go against you. On the one hand you expand your influence, either through intellectual achievement or travel, but on the other, there is a tendency to go over the top. The essential thing is to guard against hubris. There is no harm in thinking positive and being intellectually competitive, but without groundwork you will be unable to hold on to the success you are hoping for. You are attracted to mentors, but you may later feel that you misjudged people. Watch out for inflated egos.²⁰

Quite apart from the specific changes that come at the age of 28, you now reach a stage in the process of your personal evolution that enables you to integrate certain character traits that stand you in good stead for the future.

Understanding your destiny

In the period around January 2018 you get a clearer view about your personal destiny and the path you need to take to realize yourself fully as an individual. Encounters with influential groups, affiliations and charismatic leaders can draw you into to a process of reorientation. Likewise, travel to new environments can place you in a favorable position to realize your mission in life. There is however a tendency to become absorbed into movements where you lose your autonomy and personal initiative – at least for a while. If you embrace ideologies uncritically, you risk losing your identity... it is fine to orbit a planet, but take care gravity does not suck you down. This process can be part of a longer period of reorientation connected with events around and during this period you let go of bonds to the past, creating new bonds that define your future.

²¹

This activates a major life theme for you, which is the dilemma of whether to follow your own destiny, or to defer to the wishes of partners.²²

The personal development section of this report shows influences directly affecting your character, bringing both challenges and personal growth. Of these influences the most crucial are:

- a tendency to overrate yourself and fly, Icarus-like, too close to the sun.
- a time when you perceive a direction and mission with your life, under the profound influence of new groups and environments.

Feelings and security

EMOTIONAL RESTRAINT

You are in an ongoing process of emotional development, and the focus is constantly changing. As your unconscious mind absorbs impressions during the different phases of your life, you integrate greater depth and understanding of yourself and your relationships. There are specific areas of your life where this influence has a particular significance.

With your moon in your birth chart in Libra and in the 8th House this relates to your need to bond with another for security and support, and intense emotional experiences during the course of your life will bring catharsis.

Emotionally the age of 28 can be said to reflect a time when there are a lot of emotional responsibilities to be shouldered. Your mood can be subdued by the various pressures and demands, but at the same time you attain great maturity, and learn how to organize your time, plan and define your goals... particularly as regards family. Ultimately you overcome the obstacles that lie before you and build a secure foundation for the future.²³

One of the main areas where this influence will be felt is in your material life. Financial security has top priority, and your highest motivation is to feel settled and secure, so that you can be giving to those you feel a bond with.²⁴

One thing that has high priority now is the general theme of love and affection, and your inherent ability to show kindness and appreciation. Love and the emotional bonds it creates build up strong dependencies and attachment on the one hand, and a caring and nurturing attitude on the other.²⁵

You are empowered by the following.

You sense an uneasy change, as deep emotions are stirred up from within, evoking such intense processes that you are prepared to make a transformation in your life. A situation in your home environment is untenable, and a break with the past is called for. This is an excellent period for therapeutic work in connection with the past.²⁶

You are in touch with your feelings, and this gives you great power to sway the emotions of others. You are attuned to the trends of the time and have your finger on the pulse. You may be strongly involved in family relationships and business connected with property. It is a great year for relating with children.²⁷

Thoughts center on self-worth and security issues during the course of the year, and you are full of good ideas as to how to earn money.²⁸

Certain challenges arise.

In the current period you are challenged to have faith in your vision of the future, even if the family is attached to the security of past habits. Questions of principle are discussed and ingrained habits from the

past examined in the light of the intellect.²⁹

This will be expressed in an expansion of your social sphere, where lofty and influential people influence you with their ideas and convictions.³⁰

There is an unsettling emotional atmosphere during the year. It is difficult or undesirable to put down roots, and to make lasting emotional bonds. This can lead to some highly-strung episodes when you lose emotional perspective... but there is plenty of excitement.³¹

This is connected with the urge to express freedom through independent creative projects, involvement with the avant-garde or perhaps liberating love affairs.³²

This is a time when you are totally absorbed by relationships of one sort or another. You are profoundly aware of how your relationships define you, and are willing to make a number of concessions to ensure that there is harmony. Rather than asserting yourself, you are open to others and are absolutely ready to become a twosome, rather than going it alone. Human relations fascinate you now, and you develop the fine art of diplomacy and grace. Providing the best emotional and aesthetic environment for love and partnership is what it is about.

Whilst you are still in an intensely emotional period of your life, when many deep issues come up in relationships where there is a strong dependence, there is a change of emphasis around February 2017 and it is very welcome. At this time you seem to emerge from a vale of shadows and there are the beginnings of a new optimism and hope for the future. You emerge from an inner environment where you are constantly aware of threats to your survival, and new panoramas open up bringing a sense of potential and exhilaration. The years ahead will bring new learning opportunities and the strong likelihood of widening your horizons through travel. Instead of wallowing in emotions you seek a philosophical perspective and find a higher meaning in your life.

As you grow and mature emotionally, the focus shifts from one area of life to another, and you instinctively absorb the lessons connected with the many different emotional facets of your life.

- Around September 2017 there are interesting developments in your love life. Perhaps there is something of a split between family demands and romantic needs, yet this is a very loving period. Romance is certainly in the air, but it may be necessary to travel to overcome the distance that separates you from your chosen partner. Socially too, this is a very active period, and you may find yourself doing a considerable amount of family entertainment. Still, love can lead you to stray from domestic duties.³³

For you, with love there always comes a sense of longing, and sometimes an element of sacrifice. Love at this time stimulates your dreams, and awakens your need for a transcendent romantic experience.³⁴

The influences described below will have an even more profound effect on your emotional life, awakening a powerful and often unconscious response. Ultimately this brings insight into your early conditioning and enables you to modify the way you instinctively react.

Emotional Responsibility

This is not the time to expect everything to go your way as regards your emotional relationships – particularly in the home and family. You are painfully aware of your insecurities, but nobody is offering a helping hand. The answer is to develop self-sufficiency. Rather than making demands on others, shoulder the responsibilities that are expected of you. The more mature and persevering you are, the better you will feel. This challenging period emotionally lasts from March 2017 to December 2018. At home you may have to accept a lack of space or a difficult atmosphere for a while. Make do with less. Elsewhere you may feel rejected or unpopular. Just grit your teeth and keep going, and eventually your discomfort will

disappear.³⁵

This section maps out the timing and intensity of influences in your life that absorb your interest on a daily level, profoundly affecting everything, from your work to your family life. These influences constitute your emotional growth during the course of the year, and the main themes are:

- a time of challenges and responsibility in relationships, requiring self-sufficiency and restraint.
- a time when you want a deep emotional involvement in relationships and work hard to create harmony.
- a time when you emerge from emotional darkness and anxiety and find a new and higher spiritual perspective on the direction of your life.

Mental Development

BOOST OF SKILLS AND EXPANSION OF MENTAL INFLUENCE

Gaining skills through education and other forms of training is a major ingredient for success, both professionally and in relationships. Through developing your communication talents you can make contacts and build networks which facilitate progress.

With Mercury in your birth chart in Aquarius and in the 12th House this relates to your inventive genius and willingness to experiment mentally, which comes to expression on an inner, spiritual level as you tune in to your inner thoughts.

During the age of 28 your mental focus is on professional advancement, and you will be willing to work long and hard to overcome the mental challenges that stand in your path. Your managerial capacities come to the fore, and you will shoulder more administrative responsibility.³⁶

You explore the more mysterious aspects of the mind now, with a focus on the creativity, poetry, film, music and dreams. Your mystical side demands expression, and there is sadness and longing for the ineffable.³⁷

You are empowered by the following.

You find this to be a year of extraordinary mental intensity; to such an extent that you may fret and obsess about recurrent mental themes that you have little power to change. By channeling this intensity into inner investigation and therapeutic growth, you can learn many hidden secrets about yourself and others. You dig deep and find the dirt.³⁸

The influences described below will bring additional opportunities and challenges in the field of communication. By rising to educational challenges and improving communication skills, you can add to your skills and capabilities.

Details and overview

It is an extremely active period for you mentally in the period from January 2017 to December 2017. This is a time when you can travel or embark on an educational project, and perhaps have several schemes going at the same time. You may get involved with something for which you do not have all the necessary skills. There is plenty of confidence, but your judgment may be off, or you may not receive very good advice. You can get into conflict with people who have quite different opinions than you – they may be right, or they may be wrong, but perhaps it is best not to dissipate your energy on trivial discussion. Likewise it will only distract you to get involved with gossip and pointless speculation about what may or may not have been unjust or unfair in the past.³⁹

The influences described in this section challenge you to develop intellectually, socially and in relation to others. Of all these influences, in terms of the enhancement and development of your mental skills the most significant will be:

- a tendency to take too much on or to waste time on trivial discussions or journeys. Avoid juggling too many balls in the air.
- development of your ability to administer and plan, coupled with hard work and extra responsibility.

Values, Love and Relationships

JUDGING WITH THE HEART

Your need for relationship is very much dependant on your tastes, and early family experiences of bonding. These factors determine whether you feel attraction or not, or whether you are simply indifferent. People of similar tastes are instinctively attracted to you, as you are to them, and this is the basis of personal harmony in your relationships.

With Venus in your birth chart in Capricorn and in the 12th House this relates to your need to find an ambitious partner you can respect and commit to, which you will express with a sense of longing, finding more succor in inner devotion than outer romance.

In relationship matters you feel a strong romantic longing during the age of 28 – there is a tendency to idealize partners and love. On a spiritual level you develop compassion for people and want to selflessly help them, though on a personal level you can get led astray through unrealistic attractions. This can be the cause of a measure of unhappiness or sorrow. This is a good year for art, music and creativity, but as regards partnership there can be confusion.⁴¹

Family relationships are crucial for you during the course of the year, and you want to give expression to your love, affection and tastes on the home front – with partners and children. This may well mean spending time and money on your living area, buying the things you need to make your environment both comfortable and beautiful. The greatest source of pleasure is at home.⁴²

Good fortune smiles on your love life – you have a supreme confidence, not only in your attractiveness, but also in your intellectual capability. Love during the course of the year expands your horizons, perhaps through a romantic journey, and you can find a partner who treats you like royalty, and who also gives you a new view of your life. Economically too, there can be prosperity and good luck.⁴³

You are empowered by the following.

You may retreat from love into the ivory tower of your intellect during the course of the year, but the pain of rejection lingers. It is not what hurts that is important, but the means to heal what hurts. You meet people now who teach you this art, which you can both practice on yourself and on others.⁴⁴

This can hardly fail to be a romantic and passionate year. You are drawn deeper and deeper into intimate relations and fiery erotic attraction, and there is nothing for it but to let go and discover the rejuvenation quality of animal passions. If single you will be swept off your feet, if attached, then – if your head is not turned – you will go through heaven and hell because of your attraction.⁴⁵

This stirs up the domestic environment, provoking you to take action within the family.⁴⁶

Certain challenges arise.

Love brings frustrations, and it seems that you neither get the affection you desire, nor the approval you need. Keep expectations low – this is a time when you are being tested. Believe in yourself – this is just a stage you are going through to develop strength of character and self-sufficiency.⁴⁷

There are other major changes affecting relationships and values at this time, and the influences described below will bring opportunities to modify your need for others, and ultimately develop better ways of relating authentically.

Strong romantic and material appetites

You are willing to go out on a limb for the sake of relationships, and perhaps also take a large economic risk in the period from October 2016 to October 2017 . Whether your judgment is good on this is questionable, and they may also be ethical or moral concerns. Still, there is an intoxication with love, and desires are strong. Some might say life has to be lived here and now, others would say live now pay later. In the interests of economy, you may wish to check out an extra time whether you need the things you desire. As far as love is concerned, take care not to compromise what is truly valuable for short term gain. The emphasis is on travel for love and culturally different partners. What you long for in a relationship now is intellectual stimulation and a widening of your horizons. This can be achieved through involvement in cultural events.⁴⁸

Good fortune in love

There is a period of success for you both as regards your economy and your relationships from November 2017 to November 2018 , and this brings a blossoming of confidence about your attractiveness and value as a person. If you are looking for romance, you will surely find it – especially if you travel to a romantic place. This is a good time for relationships with people from cultures you admire. You are particularly attracted to wise and cultured people who can teach you something. Generally you can afford to expand, spend more and really appreciate what life has to offer. Now is the time to both harvest and enjoy the fruits of efforts that you have made in the past, and to generously share your good fortune with those you love.⁴⁹

Quite apart from the specific changes that come at the age of 28, you now reach a stage in the process of your evolution in terms of relationship that enables you to integrate new values in your life through encounters with individuals or groups where you form a bond of one sort or another.

Love and justice

The time around August 2017 is a period when bad judgment can prove costly. It seems that you can make decisions regarding the economy or relationships at this time that either do not have a sound ethical core, or reflect immoderate desires. It would be wise to avoid the urge to invest, buy or spend money on doubtful enterprises, obvious extravagances or relationships that are expensive. Relationships started at this time can prove to be financially costly or morally inadvisable. Events now may have a parallel with the period around May 2019 . This is also a time when judgment can be passed on or in a relationship that may well seem incorrect and unfair. This is not the time to expect justice in love or in financial matters – losses are likely.⁵⁰

This activate the latent good fortune you always experience in your home and family life, bringing an expansion in the domestic sphere.⁵¹

The influences described in this section will all have a significant effect on the way you relate to the world. In terms of your material values and matters of love, the most important of all these influences will be:

- a strong stimulation of your romantic nature with a corresponding difficulty in making the right judgment.

- a time when you can enjoy the good life. Experiences with friends and lovers, especially when traveling or experiencing culture, boost your confidence and self-worth
- expenses or censorship based on bad judgment romantically or economically.
- a time when you idealize or sacrifice yourself for love with the risk of experiencing disappointment, which leads to spiritual insight.

Sex, work, willpower and assertion

GOING FOR VICTORY

Nothing is achieved in life without the force and determination to go for what you want. There are battles to be won and obstacles to be overcome, and this means being able to assert yourself, and to mobilize your courage to face challenges and overcome resistance.

With Mars in your birth chart in Taurus and in the 3rd House this relates to your calm determination, stubborn will and strong desire nature, and you express your fighting spirit verbally and in intellectual competition

During As regards personal drive the age of 28 your fantasies are especially seductive, and there is an urge to go for your dreams. Still, it is unlikely that you are clear in your direction, and this can mean that you lose your way or get confused. It is a good idea to work on your personal creativity and perhaps your spiritual interests. Guard yourself against illusion.⁵³

Your energy and will is channeled into your home, making this a good time for building and working at home, though less good for family harmony. There can be domestic strife that requires careful decision-making. Brothers may present particular problems, though it is a good year for dynamic initiatives with male family members.⁵⁴

This is a year when your emotional equilibrium tends to get disturbed by discord and change which can affect home and family life. You react to threats to your security rather irrationally, and get snappy. It is actually a good time to rein in instinctive behavior.⁵⁵

You are empowered by the following.

When you have found yourself to be vulnerable and susceptible to damage, it makes sense to work on your defenses. You refine a variety of tools that you use to protect yourself and heal others.⁵⁶

Certain challenges arise.

There are frustrations whichever way you turn, but ultimately they serve to build up your willpower. Authoritative or dominating men can be a pain, but you should avoid kicking against the pricks. Build up muscle power through determined training.⁵⁷

There are other powerful influences at this time, which bring both challenges to your autonomy and independence, and opportunities for leadership and self assertion. The influences described below bring out your survival abilities and evoke a fighting spirit that can ultimately empower you.

Bulldozing the opposition

Nothing can stop you getting what you want in the period from September 2017 to August 2018 , as you have the confidence to go for it, and you are willing to take risks. This gung-ho attitude can attract considerable disapproval from people who know better, and you can waste energy discussing with or fighting people who have different views than your own. If you can channel your energy constructively, you can expand your sphere of influence and intellectual capacity, but your appetites are so strong that you are inclined to make misjudgments. You may want to develop your body through fitness and sport – it is a least a great channel for your growing energy. Your sexual appetite is also strong at this time, and you can bend the rules to satisfy your desires. There is an attraction to foreigners, adventurers and intellectuals.⁵⁸

The influences described in this section will bring changes in the way you strive for achievement. Of the many influences affecting your energy, sexuality and assertiveness this year the main areas to be aware of are:

- a time when you are unstoppable, but at the same time you tend to be impervious to how other people feel when you go for what you want.
- a strongly stimulated imagination that is good for creativity but can lead you astray.
- a strongly stimulated imagination that is good for creativity but can lead you astray.⁶⁰

Collective trends

SPIRITUAL REDIRECTION

The influences mentioned so far in this analysis have an effect on your psychological evolution and fate which is strictly personal. There are other influences on your life based on your relationship to the collective, which can be just as exciting and stimulating for you, even though they may not evoke dramatic personal change.

Spiritual realignment

You enter a phase in your life when there is a need to seek time out to consider the direction and meaning of your intended goals and mission as a human being. Is it to work and create material security, or are there social, creative or spiritual factors that have more importance if you see your life as a whole? You may well find that the smooth unfolding of material ambitions runs into some pretty muddy territory now, perhaps because you need to tune in to a higher mission and find out what ingredients need to be added to your life so that you can attain happiness. A certain discontent at this time in life may be a very useful litmus test, indicating what adjustments need to be made to realign you with your inner self. This period, which stems from a trend that lasts January 2016 to December 2018, may make you aware of sorrow and loss, but it can also bring the beauty of transcendental experience.⁶¹

Intense belief

You gain deep insight into psychological issues in the period November 2017 to October 2018. The most primitive urges and unconscious drives surface, and in this way you learn a lot about the collective forces that are a part of you and your generation. At the same time you can get carried away by an idea, and you must take care that this does not become an obsession. Fanatical beliefs and convictions will not stand the test of time. Avoid getting taken over by any one belief, and don't be afraid of dropping opinions that are no longer relevant for you. Although there is promise of greatness at this time, pitfalls loom large if you become over-intense and lose perspective.⁶²

Restraints on change

During a period that will last February 2017 to December 2018 limits will be placed on your desire for more freedom and space in your life. To some extent you need to learn that change and freedom are not necessarily good solutions just because you are restless or want to detach yourself. This is however a good time to embark on a program of invention and change if you are prepared to build the necessary foundations. Lack of responsibility is not an option; what is needed now is a planned program of innovation and consciousness growth. You may want things to happen today, but you will have to accept that healthy change requires patience and planning. Outside realities demand to be taken into account, and will probably prevent reckless action on your part.⁶³

During the age of 28 you are in a phase of your personal evolution where you are laboriously negotiating the complexities of the interpersonal relationships that are the key to success and happiness in life.

Relationships demand intimacy and authenticity as you explore the shadowy realms of emotional give and take, sexual union, and the anxieties of dependence. Materially you struggle to find the key to security and survival. But above all this is the time to share what you know and seek out people who can enhance your knowledge so that you can enlighten others about the way you see the world. To some extent you emerge from the chrysalis, which has been nurtured by intimacy, and take wing to disseminate your own personal wisdom to the world.

Seen from another viewpoint, there is a purposeful evolution in your life, and each of the events that arise can be seen as milestones on the journey of your soul. There are some fields of your experience which you are all too familiar with, and perhaps you need to relinquish your attachment to them. Other areas of experience present new and interesting challenges for you soul, and require total immersion.

The primary evolutionary focus in the year is connected with coming out of a sense of isolation and getting more involved in the working functions of society. Integrating with the work force brings up the spirit of service, and this can bring a lot of meaning in a world that sometimes can feel very lonely. What works at this time is to organize your life and create daily rhythms, which exercise your body, mind and soul.⁶⁴

The collective influences described above are very much related to the generation of which you are a part, and opportunities now arise to capitalize on trends that your generation will resonate to. The most important of these are:

- a time when inner question crowd in about the meaning and direction of your life, leading to a realignment of you creative, social and spiritual goals.
- a time when you gain a deep insight into the hidden psychological factors that unconsciously motivate you. Beware of obsessions.
- a time when the facts on the ground prevent you from indulging a restless or inconsiderate need for change. Planning is of the essence.

The influences described in this report are based on planetary cycles, transits of the outer planets and progressions of the inner planets in an integrated description which also takes into account the major factors in your birth horoscope. Thousands of factors are taken into consideration, making this report completely unique to you for the next twelve months. Rather than make specific predictions, we have tried to describe how you can make the most out of the many changes that are taking place. By defining what you really want, and going for it, you can weather the storms and currents described in this report and come safely to the destination that you are aiming for. It is in this context that the major events of this year should be seen.

Some of the themes from this year will continue into the next year, and some completely new themes will arise. Looking at the three most important events at the age of 29 you can expect change in the following areas:

A period of extraordinary intensity in your love life as you purge yourself of any falsity and strive to be as authentic as possible. Erotic attraction and even obsession play a role in breaking down emotional defenses. Relationships that mean something to you are intensified, but those which do not are eliminated.

A fortuitous culmination of events puts you in the position to increase your influence professionally and gain success and recognition. This is the time to believe in yourself and take a risk or two. Make use of influential contacts at home and abroad to expand.

You have reached a milestone when the habits and structures you have build up in the past can no longer function in the future that is dawning. Restructuring is necessary. You have a duty to pursue your own mission in life, rather than living up to the expectations of others.

These events - both good and bad - can be seen as a treasure chest for the personal journey of your soul. Every event that arises has meaning for you and is a result and consequence of previous actions. If you are able to see the challenges that arise as opportunities for constructive change, then your growth will be

rapid, and you will be able to truly appreciate and enjoy the many positive events that also arise during the course of your year.
