Read on and prepare yourself for a great journey...

The Significance of your Age

At the age of 31 you can slip into overdrive as you begin to reap the benefits of the changes that have been so much a part of your life for the past two or three years. The basic structure is in place for you to expand your influence and harvest some initial results. There may be a hint of overconfidence, but your potential for good fortune is strong, and an optimistic attitude attracts success. The inner expanses of your soul stretch beyond your own identity and into the universe. You seek meaning in cosmic truth and your heart goes out to those who suffer in this world, even though - or perhaps because - your own capacity for suffering is so great. You have psychic talents based on a sensitivity to and understanding of what is unseen. This will reflect itself in fortunately relationships generally, because of an ability to attract people of high status or intellectual capacity, as well as cosmopolitan types. The current year will bring beneficial partnership developments.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life the major challenges are in connection with home, family and your foundations. This influence started growing around January - 2015 and will ebb out around December - 2017. Many emotional issues come to the fore at this

time as your attention is drawn to problems and obstacles at home that you need to work on and improve. Baggage from your early upbringing stands in the way of intimacy, and this is experienced as emotional pressure at home. It seems like the walls are closing in around you, but if you put your mind to it you can make constructive changes in the home environment that will provide you with a stable base for the future. Once you have established strong foundations - and you will - you can proceed to an outgoing and creative phase in your life.

In this period of your life, much has fallen into place in the home and family environment, and there is a sense that you have put down roots and created solid foundations for future growth. A transition now takes place which puts the focus on your creative potential, and you start to ask yourself serious questions about your capabilities, and when you are going to do something concrete about self-expression. These new influences start growing around December - 2017 and will ebb out around March - 2020. You sense the challenge in all areas where you are likely to be judged - children, attracting lovers, performing - and you need to overcome a certain lack of confidence and put your self on the line. To enjoy life to the full you need to give yourself to the full, and recognition comes when you do this without holding back.

Opportunities for Success

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from September - 2016 to October - 2017 when the focus moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

Once you have learned how to capitalize on your unique resources and gain confidence and self-assurance, you need to reach out to others between October - 2017 to November - 2018. This leads to travel and an expansion of your skills educationally. This is a great year to widen your network of contacts. Through increased communication on all levels, you learn how to make sure-footed progress.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 31. Three very important issues that make this year special are:

- Current relationships are shaken up as you search for more freedom and excitement. Values change and you make unconventional choices, travel long distances for love, and enjoy relationships with fringe groups and people who walk on the wild side.
- A period when you are driven to investigate the deepest secrets and gain a new wisdom that transforms your understanding and beliefs. A journey can bring spiritual renewal, or contact with a mentor or the ideology of a group can profoundly change your ideas.
- There are mental challenges ahead, which - though you may at first doubt your abilities - you meet head on and overcome. Through the application of your powers of concentration, you build up proficiency in particular areas which stand you in good stead for the future.
