Dear Reyna,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

As you enter your 20th year you continue the trend from the previous year in which you assert exactly what it is about you that makes you unique. The urge to differentiate yourself from the norm is strong. For you and your generation there is a willingness to experiment with social structures, and you are inclined to embrace revolutionary new ways of grouping with other people. Your particular way of expressing your uniqueness in this respect is through making unconventional partnership choices. By choosing exotic partners you are able to maintain the detachment, openness and freedom that are important to you. At 20, developing your skills and mental talents is paramount. This is a year in which you are absorbed by justice and issues of right and wrong, although there is a tendency to be subjective in your own judgment and a little bit too categorical. You have a humanitarian soul and feel a strong sense of solidarity with your fellow man. Your ideals are strong and unshakeable, especially as regards social matters, and you never compromise these ideals, though you will show flexibility if it means facilitating the evolution of a group or organization. This will reflect itself in fortunately relationships generally, because of an ability to attract people of high status or intellectual capacity, as well as cosmopolitan types. The current year will bring beneficial partnership developments. Despite the early revolutionary tendencies of the year, you are fully aware of the responsibilities weighing on you as you enter adult life, and you work hard to create a framework for growth into your twenties.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you are focused on developing your creative skills and displaying the fruit of hard-working efforts to express yourself. This influence started growing around January - 2015 and will ebb out around December - 2017. Overcoming reticence and concern about whether what you produce is good enough is a major issue. There is considerable sensitivity about everything which is a reflection of who you are - your children, your love life and your ability to shine in social gatherings. In brief your ability to enjoy the art of living. If you cannot achieve spontaneity and be carefree, do not worry. What is needed is committed application to activities that interest you. Repeated failure always paves the way to success if you cultivate the virtue of perseverance.

In this period of your life you are searching for ways to apply your creative skills in practice. You have been working hard to overcome blockages in self-expression and to acquire the confidence to put yourself and your creativity on the line. A transition is now taking place that requires committed cooperation with others to put your skills to good use. This new influence starts growing around December - 2017 and will ebb out around March - 2020. It is no longer so much about you, but about how you integrate with others and offer your services for the benefit of the whole. In this process you will encounter challenges at work and with colleagues, which test your humility and willingness to serve. It is good training. This is also a time to focus on your body, which, if it is to serve you well, needs to be nurtured with healthy daily habits.

Opportunities for Success

Once you have learned how to capitalize on your unique resources and gain confidence and self-assurance, you need to reach out to others between September - 2016 to October - 2017. This leads to travel and an expansion of your skills educationally. This is a great year to widen your network of contacts. Through increased communication on all levels, you learn how to make sure-footed progress.

Having developed your education and communication skills, and widened your network of contacts through travel, there is an urge to expand your influence and potential on the home front between October - 2017 and November - 2018. This

brings insight and good fortune connected with property and family. At this time you broaden your emotional foundations, partly because you gain understanding of the influence of your upbringing, and partly because you are curious to learn more about how to create a nurturing and stimulating environment for yourself and those near to you.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 20. Three very important issues that make this year special are:

- A time that awakens a new mental sensitivity and interest in the arts, film and all areas of the imagination. It can be difficult to persevere with boring work, studies and other projects at this time as you long for some other kind of stimulation.
- You receive an enormous consciousness boost, awakening an interest in untraditional subjects and bringing you into contact with exciting and alternative groups. This is a period of freedom, international travel and positive change.
- A period when those structures in your life which have become ossified and outdated will be marked for demolition. There can be confrontation with implacable authorities. The sooner you abandoned an outdated framework, the quicker you can get on building a new future.
