Dear Dorte,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

As you enter your 59th year you appreciate the significance of your age on the threshold to the sixties, with the realization that your greatest achievements may well lie behind you, whilst the future both professionally, economically and in terms of relationships is dependant on the structures you have already created. Yet this very realization has a settling affect; you are too wise to struggle against the inevitable, and fully aware that any decisions you make now will have effects that can last the rest of your life. It is at this age that you really can plan how you would like your future to be, using your knowledge and experience of the society of which you are a part, to maximize the benefits that the future can bring, and minimize the limitations. Your diplomatic abilities are excellent and you have a natural sense of what is right and fair, which means that you go a long way in the cause of justice. A natural ease with relationships makes rewarding partnership a constant blessing in your life. You love to learn, and this is expressed in aesthetic and cultural interests and talents. This will reflect itself specifically in your daily working life, where a cheerful and positive approach ensures life-confirming experiences with colleagues. A positive expansion will occur this year in the work environment. Radical experimentation can be left to those who follow in your footsteps, but if your economy is strong, and your professional foundations firm, you can easily build further on what you have achieved.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand

on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life the major challenges lie in breaking down emotional barriers between yourself and those you love. This influence started growing around January - 2015 and will ebb out around December - 2017. There are hidden complexes both in yourself and in partners, which can prevent intimacy, and these will be especially reflected in sexual frustrations that at their root are to do with anxiety. Working with therapy can loosen these blockages. Dealing with faceless authorities like the tax, police, council, trade unions and powerful financial institutions can also be a challenge at this time, because you are likely to meet a power over which you have no control. Generally this is a very challenging period emotionally, because you have to deal with more extreme circumstances than normal but you develop great resilience and survival power.

In this period of your life old emotional challenges make way for new philosophical growth. On the one hand there are still a great number of issues concerned with emotional relationships, sexuality and sharing that you are working on. There are times when it feels like you are in a state of purgatory, and that a cloud obscures the future. Nevertheless you will soon emerge from this rather heavy emotional state, and see the path ahead. This new influence starts growing around December - 2017 and will ebb out around March - 2020. In the process you gain an overview of what the future will bring, and develop the skills and understanding necessary to tackle it. You will develop your full intellectual potential and build up your influence in the world through travel and cultural exchange. A new set of beliefs will take form, bringing a positive view of the future.

Opportunities for Success

After a period of living life to the full through creative projects, children and festivities, new possibilities arise in your working environment from September - 2016 to October - 2017 because of opportunities abroad, or through an expansion of your area of expertise and encounters with intellectually inspiring colleagues. This is a time to expand the influence of your ideas and disseminate information that you really believe in. It is possible that there is more work to do, but it is more interesting work and it brings personal development for you.

Having thoroughly established considerable success in your working environment,

you are ready to build up one-to-one relationships through partnership in the period from October - 2017 to November - 2018, expanding your sphere of influence and reaching out socially. Fortunate meetings with cosmopolitan and wise people can bring happiness and a new optimistic view of your potential to make an impact on others.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 59. Three very important issues that make this year special are:

- A time that heralds a period of dissatisfaction in your work that inspires you to seek new creative avenues, which make your professional life more meaningful. This is a time when you also long for, and can find, more fulfillment in your sexual life, though you can easily be led astray by desire.
- You have reached a milestone when the habits and structures you have build up in the past can no longer function in the future that is dawning. Restructuring is necessary. You have a duty to pursue your own mission in life, rather than living up to the expectations of others.
- A new twelve year cycle starts in which you reaffirm or readjust the meaning and direction of your life. This is the time to tune in to your full potential as an individual and to define a moral and spiritual mission that will inspire you in the years ahead.
