Dear Francois,

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

There could be a sense in your 69th year that if there are adventures in your life that you still want to experience, then this might just be the year to do it. During the course of your life you have discovered many of the qualities that make you unique in comparison to others. For you and your generation there is a willingness to experiment with new ways of thinking and communicating that revolutionize the way people connect. Your particular way of expressing your uniqueness in this respect is through seeking alternative modes of employment and maintaining space and freedom in your daily life at work and at home. You are willing to change work regularly to avoid getting stuck in a rut. There is nothing in your life to stop you pursuing interests that inspire you now. The very structure and backbone of your life supports you in making realistic moves to go out and make some waves. You can meet exciting and perhaps younger people now, who show you new possibilities for the future. And you can let go of bonds to friends and groups who no longer accord with your vision of the future.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you continue working on a new framework for your

personal development by defining the path ahead. There are a lot of challenges, delays and obstacles to be overcome, but now you know what you want, and you are prepared to work long and hard to set in motion your new plans. In the past, initiatives tended to dissolve before being put into practice, because you were trying to achieve outdated goals. Now initiatives really kick in and gain traction. These new influences started growing around December - 2017 and will ebb out around March - 2020. You are setting the scene for a whole new epoch of personal development. The time has come; other people need to accept that your greatest responsibility is now to yourself, because unless your life is on a strong footing, and unless you are following your own mission, you cannot be strong for others.

Opportunities for Success

With professional achievements and an increase in status behind you and many career goals achieved, you are ready to capitalize on recent success by consolidating your assets and expanding your influence socially in the period from October - 2017 to November - 2018. Generous friends and mentors smooth your path and give you access to the highest places, and you harvest wisdom and influence at social gatherings.

After a period of expansion and satisfaction in your social life, your search for meaning and understanding goes within, and in the period from November - 2018 to December - 2019 you discover the spiritual riches that can be attained through seclusion and introspection. This is a time when learn how man and cosmos are interconnected, when you feel empathy and solidarity for fellow human beings.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 69. Three very important issues that make this year special are:

- You engage in an uncompromising period of identity change which at times threatens to overwhelm you. Only by abandoning aspects of your character and life that no longer serve any purpose, and making a leap of faith towards a new future, can you reclaim a sense of authenticity about your existence.
- An exceedingly optimistic period begins when you gain insight into the meaning and direction of your life, expand your boundaries of knowledge and learning and widen your horizons through travel. This is a time when you develop a humorous attitude to life.

- The efforts you have made in the past to build up a stable framework in your life start to bring concrete results and advantages. You approach challenges with a confident and mature attitude and are able to consolidate your position both professionally and domestically.
