Read on and prepare yourself for a great journey...

The Significance of your Age

After the struggles and challenges of the previous year, your 23rd year brings welcome expansion and renewed optimism. Everyone needs the dream of a pot of gold at the end of the rainbow to inspire them, and it is now that you begin to harvest some of the rewards for all the hard work you have done. You have a natural capacity to investigate hidden and secret material in your own psyche and in the world. An awareness of life as a process of constant death and rebirth brings psychological wisdom, gained through ruthlessly pursuing authenticity and emotional truth, whilst nurturing an understanding of the demons other people struggle with. This is expressed very much in home and family matters this year—parents, children, property etc. An expansion is sure to take place in this area now, and the greatest insight is harvested through an understanding of family dynamics, and an exploration of improvement possibilities at home. In addition, this is a year when you may want to make adjustments in your purpose or inner life mission. Some of the social groups you are involved with may have values that run at counter purpose to your own, yet you can gain valuable experience from relating to people with different values. The crucial question when looking at the balance of your life right now is just how much real satisfaction you are getting from your material attachments and the questionable comforts they bring. Perhaps there is more authenticity and intensity to be found in psychological transformation and the pursuit of non-material values. Even more specifically it is worth considering whether an exaggerated focus on professional ambitions has prevented you from building up a secure family base from which you can gain a strong anchor and

rewarding emotional nourishment.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you are focused on developing your creative skills and displaying the fruit of hard-working efforts to express yourself. This influence started growing around January - 2015 and will ebb out around December - 2017. Overcoming reticence and concern about whether what you produce is good enough is a major issue. There is considerable sensitivity about everything which is a reflection of who you are - your children, your love life and your ability to shine in social gatherings. In brief your ability to enjoy the art of living. If you cannot achieve spontaneity and be carefree, do not worry. What is needed is committed application to activities that interest you. Repeated failure always paves the way to success if you cultivate the virtue of perseverance.

In this period of your life you are searching for ways to apply your creative skills in practice. You have been working hard to overcome blockages in self-expression and to acquire the confidence to put yourself and your creativity on the line. A transition is now taking place that requires committed cooperation with others to put your skills to good use. This new influence starts growing around December - 2017 and will ebb out around March - 2020. It is no longer so much about you, but about how you integrate with others and offer your services for the benefit of the whole. In this process you will encounter challenges at work and with colleagues, which test your humility and willingness to serve. It is good training. This is also a time to focus on your body, which, if it is to serve you well, needs to be nurtured with healthy daily habits.

Opportunities for Success

Once you have learned how to capitalize on your unique resources and gain confidence and self-assurance, you need to reach out to others between September - 2016 to October - 2017. This leads to travel and an expansion of your skills educationally. This is a great year to widen your network of contacts. Through increased communication on all levels, you learn how to make sure-footed progress.

Having developed your education and communication skills, and widened your network of contacts through travel, there is an urge to expand your influence and potential on the home front between October - 2017 and November - 2018. This brings insight and good fortune connected with property and family. At this time you broaden your emotional foundations, partly because you gain understanding of the influence of your upbringing, and partly because you are curious to learn more about how to create a nurturing and stimulating environment for yourself and those near to you.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 23. Three very important issues that make this year special are:

- A period that heralds a mental transformation process which is characterized by intense thoughts processes, obsessive argument and general exhaustion. Ideas and projects, especially in the field of education, are rejected and new more psychological interests embraced.
- A period that brings intense experiences in relationships on an erotic and psychological level, perhaps because your tastes and values are undergoing a deep transformation. Economic and emotional bonds that have outlived their relevance are dropped and replaced by new.
- You expand your skills and mental horizons, and have success in educational and communication ventures. This may bring travel and a growth in your personal network. You associate with people who think as you do, and together you can pursue a shared agenda.
