Dear Laura,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

You may be in your mid-sixties, but as you enter your 65th year, your mental interests are as alive as they have ever been. However this is a year when there are a number of practical matters that occupy your mind. It is important to take concrete steps to deal with worries that may arise. There are challenges that simply require perseverance, commitment and concentration. Challenges now have a lot to do with a long history of difficulties in relation to others. It seems that much is demanded of you in personal relationships, which require long-term application and commitment. Yet by taking responsibility and respecting the views and values of others, you can build a strong position in society as an unbiased and fair-minded person. These challenges have a lot to do with a latent insecurity that you feel together with friends and groups. Early social experiences have made you defensive in relations to social demands, yet time will show that you can take a position of responsibility in relation to a group and help it grow, even if you maintain the position of an outsider. This is also a year when some kind of reorientation or realignment is necessary. The crucial question when looking at the balance of your life right now is whether focus on a need to prove yourself through creative achievement, children and love, prevents you from realizing the benefits of pooling your skills with a group. Perhaps true inspiration comes through being part of a greater social movement rather than through personal acclaim. Even more specifically it is worth considering whether your tendency to seek wider horizons both intellectually and through international wanderings has isolated you from people on a local level who you would benefit from networking with. People or

groups who are no longer significant for the development of your soul may recede into the background now, and new people may turn up who have a role to play in your future.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you continue working on a new framework for your personal development by defining the path ahead. There are a lot of challenges, delays and obstacles to be overcome, but now you know what you want, and you are prepared to work long and hard to set in motion your new plans. In the past, initiatives tended to dissolve before being put into practice, because you were trying to achieve outdated goals. Now initiatives really kick in and gain traction. These new influences started growing around January - 2015 and will ebb out around December - 2017. You are setting the scene for a whole new epoch of personal development. The time has come; other people need to accept that your greatest responsibility is now to yourself, because unless your life is on a strong footing, and unless you are following your own mission, you cannot be strong for others.

In this period of your life you feel that you have set in motion a new plan for your life. The framework is in place, your intentions have been made clear, and when you examine your feelings, you know you are on the right track. Now you enter a transition phase that requires concrete results. You need to consolidate your position and nurture your resources, so that you can actually achieve the new goals you have set yourself. This new influence starts growing around December - 2017 and will ebb out around March - 2020. In this coming period you will be crucially aware of a shortage of funds, and this is an ideal motivation for increasing your earning power. You need to build the structural framework for future prosperity, and this has to start with economy and restraint. Learning about saving and budgeting are key issues, but it is also important for you not to underestimate your potential worth.

Opportunities for Success

After a period of expansion and satisfaction in your social life, your search for

meaning and understanding goes within, and in the period from October - 2017 to November - 2018 you discover the spiritual riches that can be attained through seclusion and introspection. This is a time when learn how man and cosmos are interconnected, when you feel empathy and solidarity for fellow human beings.

An awareness of the spiritual forces behind your individual evolution has enriched your understanding of your self and the universe, and this now ushers in a period from November - 2018 to December - 2019 when you are ready to emerge from seclusion and apply this inner wisdom more directly in your dealings with others. A new confidence is reflected by a more forceful personal presence in which your ideas and opinions pave the way for personal expansion.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 65. Three very important issues that make this year special are:

- Your ethics and principles are put to the test as you take advantage of opportunities for expansion, travel and widening your intellectual horizons. You have a strong belief in the future, but you need to weigh risks against realities.
- A time that awakens a new mental sensitivity and interest in the arts, film and all areas of the imagination. It can be difficult to persevere with boring work, studies and other projects at this time as you long for some other kind of stimulation.
- A positive period of recognition and acclaim arises at this time as beneficial influences converge to make you feel good about yourself and confident about your prospects. This is the time to expand your horizons intellectually and through travel, and propagate your ideas.
