Dear Vishlesh,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

During your 41st year you are still in the middle of a number of unfinished processes that require a review of the direction of your life. On the one hand powerful material forces give the opportunity for growth and expansion, whilst on the other you are required to expand your spiritual life. Crucial experiences with people and groups that you have been involved with force you to revalue who you want to be with in the next phase of your life. An expansion of your horizons now can bring long journeys of exploration, and they can bring separation from people and circumstances that you feel have been restricting you. For you and your generation there is a willingness to experiment with intimacy and sexuality, and you are inclined to break taboos and experiment with consciousness transformation. Your particular way of expressing your uniqueness in this respect is through shunning the attractions of material desires and embracing alternative values. This can result in a precarious economy, but for you it is worth it for the freedom this brings. These changes can be accompanied by a spiritual and psychological crisis, that despite upheavals bring catharsis and renewal. If you have anything unique you feel you can offer the world, this is the time to express it.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the

challenges that naturally arise during the course of the year.

In this period of your life you are working hard to develop educational and communication skills that will serve you well into the future. This is a challenging task, and there will be times when confidence in your intellectual abilities is low, or when you simply feel the process is too long or too full of setbacks. This is when you have to apply yourself with more determination than ever. Avoid being defensive about what you do not know or cannot do; just plan to improve step by step. These influences started growing around January - 2015 and will ebb out around December - 2017. You will reach your goal, and in the process you will build a valuable network of contacts who appreciate your diligence and application.

In this period of your life there is a major transition process that puts the focus on home-building and family life. For several years it has been important for you to develop your educational and communication skills and increase your reach through travel and networking with others. But now it is crucial to put down roots, and you find yourself thinking back to your own heritage and upbringing with a view to create a nurturing environment for those who are dependant on you. These new influences start growing around December - 2017 and will ebb out around March - 2020. During this time you will have established a very solid base from which to make forays out into the world. But it is early days yet, and right now you may feel ill-prepared. It starts by taking responsibility for the family and working on the home.

Opportunities for Success

An awareness of the spiritual forces behind your individual evolution has enriched your understanding of your self and the universe, and this now ushers in a period from September - 2016 to October - 2017 when you are ready to emerge from seclusion and apply this inner wisdom more directly in your dealings with others. A new confidence is reflected by a more forceful personal presence in which your ideas and opinions pave the way for personal expansion.

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from October - 2017 to November - 2018 when the focus moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 41. Three very important issues that make this year special are:

- Unpredictable events raise your adrenal levels and bring out the fighting spirit in the coming months, making you more inclined to take considerable risks. Whilst the samurai spirit is awakened, you may provoke others unnecessarily.
- You enter a period of financial expansion and good fortune in relationships, as trends peak to enable you to harvest what you have earned. The tendency to overindulge is strong and some restraint is advised, but it is also important to celebrate the good things in life.
- You are challenged to grow and develop, but the framework you have built to protect you from difficulty stand in the way. This is the time to take advice from people who think positively, and adjust the framework of your life to accommodate the future.
