THE ESSENTIAL YEAR REPORT...

At the turn of the 21st century, there were 6 billion people on Earth. No two of them were born on the exact date, time and place - everyone has a unique horoscope. This horoscope reflects personal characteristics that the individual has chosen to work with in this life. He or she meets parents, brothers and sisters, friends, teachers and finally partners, who evoke an evolutionary development for the soul.

Each individual has then a unique life that can be mapped astrologically according to the planetary movements after birth. World of Wisdom's Essential Year Report synthesizes three astrological methods to map the life journey of the individual:

- Progressions, which reflect a personal evolutionary, or karmic pattern present at birth
- Transits, which reflect collective trends that evoke specific behavior in the individual
- Solar Returns, which are horoscopes calculated for each birthday, showing what happens to the individual on the year in question. (For unknown birth times and yearly horoscopes starting on days other than your birthday, another astrological technique - horary - is used.)

This synthesis is complex. With 12 signs, 12 houses and 10 planets (with Sun and Moon) there are 1440 simple combinations. When the connection between planets are taken into consideration (aspects) and then transits and progressions, there are several hundred thousand combinations. Essential Year Report works on several thousand of these, the rest needs to be filled in with your memory and creative visualization.

This reading describes your own evolutionary journey. To understand it fully you need to understand the talents and challenges that the planetary positions at birth represent. The first part of every section of Essential Year Report explains therefore what you can expect in life based on who you are as a person. It is crucial to realize that what happens during the course of the life is constrained by these personal factors. If your love-life promises great happiness, then later trends will trigger this potential... and vice versa.

If you wish to know more in detail about your personal character and how to get the most out of your life, then our Birth Horoscope Interpreter will go into this deeply. The Essential Year Report is designed to map out the timing of events and the fulfillment of your destiny.

INTRODUCTION

During your 47th year you experience a surge of personal confidence and a renewed vision of just what you are aiming for in life. Insight and understanding come easily to you, and you are drawn to deeper study and an urge to widen your horizons through travel. Your opinions and convictions become more pronounced, and you are not prepared to allow intellectual and spiritual authorities to browbeat you. Whilst you are willing to receive instruction from the truly wise, you have no time for self-appointed gurus. Enjoying life is a question of attitude, and this year your natural optimism ensures that you attract good fortune and success. Your diplomatic abilities are excellent and you have a natural sense of what is right and fair, which means that you go a long way in the cause of justice. A natural ease with relationships makes rewarding partnership a constant blessing in your life. You love to learn, and this is expressed in aesthetic and cultural interests and talents. This will reflect itself in your whole appearance and style, which is characterized by a confidence in the rightness of your beliefs, and a pedagogical attitude in general – areas which will expand and bring satisfaction in the current period.

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life there is a major transition process that puts the focus on home-building and family life. For several years it has been important for you to develop your educational and communication skills and increase your reach through travel and networking with others. But now it is crucial to put down roots, and you find yourself thinking back to your own heritage and upbringing with a view to create a nurturing environment for those who are dependant on you. These new influences start growing around December - 2017 and will ebb out around February - 2020. During this time you will have established a very solid base from which to make forays out into the world. But it is early days yet, and right now you may feel ill-prepared. It starts by taking responsibility for the family and working on the home.

An awareness of the spiritual forces behind your individual evolution has enriched your understanding of your self and the universe, and this now ushers in a period from September - 2016 to November - 2017 when you are ready to emerge from seclusion and apply this inner wisdom more directly in your dealings with others. A new confidence is reflected by a more forceful personal presence in which your ideas and opinions pave the way for personal expansion.

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from November - 2017 to December - 2018 when the focus moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 47. Three very important issues that make this year special are:

- A period of emotional purgatory when old bonds and attachments are examined and either transformed or eliminated. Behavior conditioned in childhood is dredged up, dealt with and replaced with more mature behavior in an exhausting transformation process.
- After a period when you have worked on improving communication and education, your focus moves to establishing a secure family base. This involves structural changes in the home and a deeper awareness of the emotional dependencies you have inherited from parents and ancestors.
- There are heavy challenges at work and in relation to dominating male authorities that initially undermine confidence in your strength and personal autonomy. There may also be lack of sexual self-confidence.

Where there is a will there is a way – this is a time for working on personal power.
These along with other influences will be examined later in the report.

Life Path

NEW LIFE GOALS BEGIN

There are many spheres of human activity which are active at any one time, but each year there will be a focus on a particular area of your life that will absorb you more than anything else, and be at the center of the events of that year.

A slow transition to a new phase in your life path makes itself felt around November 2018 which can affect the direction of your life and relationships. In the past you have unflinchingly embraced emotional transformation in an intense and uncompromising way. But perhaps there is a sense of exhaustion; now you need something that offers more happiness, hope and expansion, and to let other people know more about the wisdom you have gathered. A new life beckons offering the widening of your horizons through travel and intellectual prowess. In relationships you need an outgoing person who can stimulate you mentally.

The theme at the age of 47 is developing an appreciation of the material benefits you currently enjoy, and working on consolidating and improving your comfort level and worth. Therefore economic issues will be a key element of the year, and it is important for you to ensure that you get what you are worth, or at least work on your inner sense of self-worth. This can also include investing in yourself and your appearance, and indeed anything else which is likely to increase in worth during the course of the year.

This theme awakens your romantic and loving sides, and also your need to attract love and affection from others. There is a special focus on your aesthetic tastes, and your need to both earn and spend money to indulge them.

You will be strongly guided by your personal values and tastes in the year ahead, and your strongest motivation will be to create security and comfort

In many matters it is best for you to adopt a low profile. You will not be able to insist on the satisfaction of your needs – quite the opposite, it is your duty to attend to the needs of others. The key word here is service – keep expectations low and take pleasure in helping others. Organization and efficiency are the watchwords for success.

This is an influence that you seek to express creatively, and you are willing to put your identity on the line to receive feedback about your capabilities as a human being. It is a playful time.... a time to celebrate life and living. Children can be part of the recipe for joy and self-expression, though love and romance can also be factors that help you increase your self awareness and happiness.

You are empowered by the following.

You work furiously and competitively to get ahead with your agenda, but tend to run into opposition through

being too forceful or impatient. You may employ someone who fights some of the battles for you, and as a team you conquer the territory ahead of you.

This galvanizes the desire you have this year to promote yourself and assert your creativity and sexuality. Certain challenges arise.

There is a certain emotional discomfort in the pursuit of your agenda. Perhaps things do not harmonize so well with family life or your sense of security. You invest a lot of feelings into what you do, but there tend to be a lot of mood swings.

This awakens feelings centered on friendships and the emotional investment you make in groups.

There is an intangible sadness that undermines your agenda... a sense that it is all meaningless, perhaps. Be guided by this feeling into refining your vision and attuning it to a higher purpose, which involves creative work and compassion for others.

This activates a need to define your dreams and ideals and integrate them into a creative and meaningful career.

Some factors help.

You apply yourself intensely and uncompromisingly to achieve your agenda. If something does not work, you are prepared to throw it out and start again, but do not throw the baby out with the bathwater. You are able to apply great psychological talent in the pursuit of your objectives.

This specifically activates a need to transform your views and convictions, giving the opportunity to eliminate destructive attitudes and beliefs,

There are unique opportunities and challenges affecting you personally right now, which can result in significant lifestyle and relationship changes or modifications. If you would like to see your life going in a different direction, now is the time to take the reins and choose a path which is uniquely suited to you, as described by the influences below.

Adjusting to the realities

This is a time when it is important to make structural changes in both your personal life and in your relationships to others, as new responsibilities and challenges arise, demanding a more restrained and disciplined approach. To some extent you are required to fit in, and this can be a pressure for you as you adjust habits and cut back on personal preferences to accommodate the realities of your situation. Your normal vitality may be depressed by difficult circumstances, and you may also feel that the people you are committed to may be demanding more than is comfortable. Perhaps you have to take more responsibility for a loved one now. Nevertheless in the period from February 2017 to December 2018 – if your birth time is reasonably accurate – it is important to avoid escapism and rise to the challenges that come your way. To strengthen personal health and the integrity of relationships at this time it is wise to adopt a new program of self-discipline, training and restraint.

This initial section of the report is connected with your lifestyle and direction, and the factors described above modify this direction as you respond to outside influences and your own inner evolutionary process. Of these factors the most significant during the age of 47 are:

- a time when you may not get what you want, but you do get what you need. Rise to the challenges that arise in your personal life and relationships.
- a time to consolidate of your economy and increase in self worth by capitalizing on your talents.

Career

PROFESSIONAL FREEDOM, FAMILY SPACE

Every year there is a particular focus on your goals and ambitions, and a need to reformulate your mission in life and what you want to achieve. It is equally important to have a good foundation to build your successes on in terms of home and family.

A major theme as regards career during the age of 47 is your desire to work on a higher vision shared by a group or organization that may have an international agenda. Your own ego is subsumed by the group and the atmosphere at work is one of idealism and inspiration. You may also choose to go down a professional path that channels some unique, individual talent.

This theme is very much connected to your skills of self promotion, based on a strong confidence in your abilities. Your very best qualities can be harnessed to your ambitions now, and this can bring recognition and honor.

You are aware of your social responsibilities in your career and seek to integrate your ambitions for the greater good, which you will do in a specific fashion and in a specific area.

To attain success you develop your depth and understanding, which means that training and learning on a high intellectual level are crucial. You can broaden your mind by expanding your horizons, which may bring long-distance travel.

The main area to concentrate on this year is on issues of security and allaying economic anxiety. This is an excellent time for mobilizing your psychological talents too. To secure finance you need to deal with banks and other powerful institutions.

Certain challenges arise.

One factor that can undermine success right now is the feeling of being crippled by insecurity about whether you are accepted and can integrate with those that already enjoy the benefits you would like. But perhaps there are quirky talents you can capitalize on that other people do not possess.

This is connected with something that is painful in your social life, or involvement with a friend who is wrestling with an incurable problem.

One factor that can undermine success right now is a general feeling that your ambitions do little to make you, or your family, feel secure. You have mixed feelings about career efforts, because it disrupts the status quo and habits that are dear to you. You need to get your emotional life under control if you want to make progress.

Some factors help.

One very positive factor that helps you achieve your professional agenda is your ability to draw on your local environment and the important alliances you have made with people, who help you on your path to realize your life mission.

In this process you need to center yourself in own family an emotional base, rather than drawing on your professional network.

One very positive factor that helps you achieve your professional agenda is your willingness to experiment and take risks. It is your innovation ideas that work now, as well as anything connected with personal development or international groups. Make the most of your cyberspace network!

This is connected with the unsettling stimulation of your imagination, dreams and spiritual convictions which also can bring deep inner insights.

Challenges and opportunities arise at this time which can bring major changes or adjustments in both your career and your domestic life. The influences described below can bring concrete change, enabling you to live and work on a new level.

Career experimentation, domestic change

Though this may be an unsettled time in your career and domestic life, you now feel the need to experiment and embrace new ideas and methods that give you more space and freedom. You can gather new inspiration from connections abroad, from new technological advances and from alternative groups and mentors. You adapt professional goals to incorporate a more independent or free-lance approach and generally liberate yourself from the tyranny of authoritarian people or systems. It is a good time for following your own unique path and capitalizing on your special individual talents, and it pays off not to be too bound to your family home or roots. For example relocation is an option that is worth considering. This trend lasts from May 2017 to April 2020 – if your birth time is reasonably accurate – and leads to a fresh new approach to your professional future.

Boost in career and family

As far as your goals are concerned there are particularly favorable developments in the period from January 2017 to December 2017 . Influential people smooth the path for you and leverage you into an advantageous career environment. Your own understanding and wisdom help you expand your influence. The focus is on a greater overview, on the international rather than the local. Good fortune not only affects career and promotion possibilities, it also gives great opportunities for property, family expansion and happy domestic events. This is an optimistic time for you, your parents, and family members generally – a time to buy property or enjoy a wonderful holiday abroad

The career section of this report explains influences in the current year that can cause you to adapt or change professional goals, and make use of opportunities that come your way. Overall, in the area of family and career the major developments you can expect are:

- a time when there are opportunities for change both domestically and professionally, bring more freedom and space and the implementation of unique talents.
- favorable developments both domestically and professionally due to an element of luck and a positive attitude to life
- a time when your professional life is define by the vision of a group which has an untraditional or idealistic agenda.

Personal development

WISDOM AND EXPANSION

During the course of the year you will have a number of character-building experiences, which help you grow and develop as an individual. It is rare for any difficulty to last longer than a period of about eight months, and if you regard challenges that arise as a test that helps you become stronger, then it will be relatively easy for you to overcome them. Similarly, when events boost your confidence, it is pays to take advantage of the limited time available to capitalize on your good fortune.

and in the 1st House this relates to your need for equilibrium and personal balance , in connection with projecting yourself in the world.

An important feature around the age of 47 is your need to define your identity by projecting yourself and taking a stand for who you are. Whether it is through personal creativity, dealing with or having children, or any activity where you express yourself and expect a response, this is the time to believe in yourself and the unique qualities of your personality. By getting involved in the act of creation, you make something that reflects who you are, and can thus set your stamp onto the world. The act of creativity involves taking a risk, yet it is the litmus test of your belief in yourself.

A transition to a new phase in your evolutionary development makes itself felt around [date] when you let go of the need for emotional intensity and constant transformation, and embrace a new and more optimistic life view. You extricate yourself from exhausting emotional bonds and let the spirit soar, expanding your horizons through intellectual attainment and travel. Psychological processes make way for a new search for wisdom and understanding which characterizes the next 30 years.

You are empowered by the following.

This is a time when mental focus is important. This means developing your network of contacts, training your skills, educating yourself and generally being on the move. There may be a symbiosis with someone with whom you closely share your ideas and thoughts. Yet clarity is difficult to establish; stress levels are high and you tend to burn your fingers because there are too many irons in the fire. You seem unable to maintain objectivity, and plunge in blindly.

Thoughts are focused on children and loved ones, and the year ahead brings a celebration of creativity.

Certain challenges arise.

You are in a period when major transformations of your personal character are on the agenda. You cast off falseness, throw away the mask, and assert yourself uncompromisingly. Your desire to be totally authentic can also lead you to be ruthless - for you, being true to your inner nature is non-negotiable. People can take it or leave it. The tunnel is long, and dark... but light starts to emerge at the end of it.

The personal development section of this report shows influences directly affecting your character, bringing both challenges and personal growth. Of these influences the most crucial are:

Feelings and security

PURGING EMOTIONAL ATTACHMENT

You are in an ongoing process of emotional development, and the focus is constantly changing. As your unconscious mind absorbs impressions during the different phases of your life, you integrate greater depth and understanding of yourself and your relationships. There are specific areas of your life where this influence has a particular significance.

With your moon in your birth chart in Cancer and in the 10th House this relates to a deep need to relate emotionally in a secure environment, and there is a powerful desire to establish a secure career – preferably dealing with people and their needs.

Emotionally the age of 47 can be said to reflect a time when you are more sensitive and receptive than usual, particularly towards the suffering that you see around you. There is a compassionate motivation to alleviate the problems other people are going through, although there are also chaotic conditions in your own emotional life. Creative and spiritual interests bring growth.

One of the main areas where this influence will be felt is in your friendships and in your social life. There is a strong sense of belonging to a group with a social agenda you can believe in, but there are also many swings of mood as alliances fluctuate and change. You are able to provide a nurturing environment through your emotional engagement.

One thing that you are uncomfortably aware of now is that emotional needs connected with family security run counter to your inherent desire to be romantic and invest in the important relationships in your life. It is difficult to balance the demand to nurture and care, with your natural urge to celebrate love.

You are empowered by the following.

There can be a degree of confusion about what it is you exactly want. You are very sensitive to suggestion and easily led astray or confused. Whatever it is you think will make you secure, turns out not to do the trick. As a result you learn that security can only be guaranteed when you find it within.

You are acutely aware of some pain or wound within the family or in connection with an emotional bond. You are able to draw upon unusual healing abilities, perhaps because of a healer or mentor who can show you how to transform weakness into strengths.

Certain challenges arise.

During this period there is a dissonance between family needs and romantic needs. Your loyal commitment to those with whom you feel a mutual dependence runs counter to an equal need to be loved and appreciated, which can bring some polarization in relationships.

Relationships are initiated or celebrated at parties and performances, as your confidence in your own

attractiveness is strong during the course of the year.

There is an element of stress connected with your need for a stable attachment and an urge to go out into the world and fight for what you want. Impatience and irritation will undermine domestic harmony if you are unable to dampen

The year ahead brings an important transition in your emotional life when you leave the hustle and bustle and urge for dynamic progress behind you and strive to consolidate your life and achieve more stability. This change happens in December 2017 . It becomes less important for you to compete and win and more important to gather your winnings and build a secure foundation for future growth. Your mood mellows and you are far less likely to flare up. Conserving your energy becomes paramount, and you focus on building up your strength through stable habits, and channeling it into safe investments. Now your material life becomes important, and you savor the pleasures a stable economy can bring. You become more in tune with the senses and the body.

Whilst this is a period with the major focus on partnership and learning the art of tuning in to the needs of others, there is a change of emphasis around July 2018 . At this time relationships take on a far more serious tone as you strive to come to the root of emotional issues that have been long buried. This in turn awakens anxiety – about loss of intimacy and security – which evokes psychological issues from your past that now need to be dealt with. Removing the reservations that block sexual enjoyment and emotional intensity is crucial. Other issues that affect security, like debt and relations with powerful institutions, also come up at this time. The fact is that dependence on others, emotionally or financially, needs to be accepted and the feelings this bring up need catharsis.

The influences described below will have an even more profound effect on your emotional life, awakening a powerful and often unconscious response. Ultimately this brings insight into your early conditioning and enables you to modify the way you instinctively react.

Emotional upheaval

This is a period of emotional upheaval because unconscious habits and behavior conditioned in the past are dredged up and have to be dealt with. Initially in this process you feel threatened and insecure. Emotional relationships lurch from crisis to crisis as irrational feelings well up and overwhelm you. In fact you are being presented with the opportunity to examine and ultimately eliminate behavior that you learned as a child which has up to this point undermined the integrity of your bonds to others. Some therapy can be very helpful; at least you need to purge yourself of dependency and attachments that lock you into your past. This emotional transformation spans the period from March 2016 to December 2020 and when you emerge you will have created new foundations for your life that will have profoundly affected your home and family. In a sense this is opportunity for rebirth.

Family consolidation

After a period where the focus has been on learning and communication, you are ready to turn your attention within to look at your roots and the foundations on which you build your family life. There are pressing challenges, but you are definitely prepared to meet them. This can relate to parental relationships, or your role as a parent yourself. It can also be connected to responsibilities you have in your local environment. On an inner level the time has come to reassess family bonds and examine emotional dependency. By stabilizing family life now you create the foundations for advancement in your career, and the security to be more creative in your life. It may also be worth examining your heritage and ancestry too, because you now learn about the building blocks that have created your life circumstances, and your inherited weaknesses and strengths. Domestic challenges will cover the period from January 2017 to December 2018 – if your birth time is reasonably accurate – and lead to a consolidating of home and family life. This is the time to do building work to make the home function more effectively.

Expansion of comfort zone

A period of expansion in your personal life takes place from November 2017 to November 2018 which

brings a general sense of well-being, partly based on a deeper understanding of the unconscious factors that motivate your actions. Your comfort zone expands – you are more comfortable with yourself, and more comfortable with your role in a family that is likely to be extended considerably. If you wish enlarge your home, move, or invest in property, good fortune tends to come your way without too much effort. Parents in particular can be very supportive, as will your environment in general. You have the confidence and faith to give empathy and support to those in need, and can show those people who are attached to you just how to enjoy life and have a good time.

This section maps out the timing and intensity of influences in your life that absorb your interest on a daily level, profoundly affecting everything, from your work to your family life. These influences constitute your emotional growth during the course of the year, and the main themes are:

- a time when powerful emotions threaten to take over as old attachments and bonds are examined and found wanting. An emotional transformation and rebirth.
- a time when the focus shifts to family bonds and the challenges of creating a secure home. There is a greater awareness of your ancestral roots.
- a time when you experience a boost in confidence and happy developments at home and in your family life.
- a time of transition when you cease fighting and begin consolidating. Peace and security seem more conducive to emotional contentment.
- a time when relationships evolve to a deeper level when repressed anxiety about dependence comes to the fore.

Mental Development

PROLONGED LEARNING AND STUDY

Gaining skills through education and other forms of training is a major ingredient for success, both professionally and in relationships. Through developing your communication talents you can make contacts and build networks which facilitate progress.

With Mercury in your birth chart in Libra and in the 12th House this relates to your grace of expression and diplomatic talents, which comes to expression on an inner, spiritual level as you tune in to your inner thoughts.

During the age of 47 your mental focus is on honing your diplomatic skills. The focus is very much on the important relationships in your life, and how to create harmony in them. Aesthetic considerations are an important part of your decision-making during the course of the year.

Your mental abilities are channeled into being creative. You need to stand up and express your ideas and theories with courage and humor. Events connected with children or your love life are also central during the course of the year – this is the time to turn up your charm and entertainment talent.

Somehow you want to express your essential identity during the course of the year. In all your dealings you want to be true to yourself and go on your own unique path. Your basic integrity and authenticity shines through.

The influences described below will bring additional opportunities and challenges in the field of communication. By rising to educational challenges and improving communication skills, you can add to your skills and capabilities.

Exasperation

There seem to be difficulties and delays in all sorts of ways in this period. Whether it is connected with travel, communication, relations or education, there are knotty problems that take time and can be the source of considerable frustration. This is a testing period mentally, and short cuts are not permitted. If projects seem overwhelming, divide them in to smaller tasks and concentrate on them rather than thinking about the whole project. It is important to plan well now, and to put more effort into the task at hand. You need to learn the basic skills, so be patient – with yourself and with your colleagues. This mentally challenging period lasts from January 2017 to December 2018 and you will emerge from it with a much better grasp of the issues than you had at the beginning. The essential thing is to avoid worry and negative thinking, which will only wear you down physically and mentally, and to rise to each small challenge with determination and a positive attitude.

The influences described in this section challenge you to develop intellectually, socially and in relation to others. Of all these influences, in terms of the enhancement and development of your mental skills the most significant will be:

- a time of frustrations and delays in travel and mental pursuits, requiring patience, discipline and good planning.
- development of your diplomatic ability and communication skills in relationships.

Values, Love and Relationships

LONGING FOR IDEAL LOVE AND SPIRITUAL VALUES

Your need for relationship is very much dependant on your tastes, and early family experiences of bonding. These factors determine whether you feel attraction or not, or whether you are simply indifferent. People of similar tastes are instinctively attracted to you, as you are to them, and this is the basis of personal harmony in your relationships.

With Venus in your birth chart in Virgo and in the 12th House this relates to your need to show your love through the little things, and to really care, which you will express with a sense of longing, finding more succor in inner devotion than outer romance.

In relationship matters you have a need to adopt a low profile during the age of 47. You will not be able to insist on the satisfaction of your needs – quite the opposite, it is your duty to attend to the needs of others. The key word here is service – keep expectations low and take pleasure in helping others. This is a year where you want to attend to practicalities rather than be distracted by romance, and your working relationships can be more important than partnership.

Romance figures strongly in your life during the course of the year, and you derive great pleasure from getting out and about, partying, entertaining and being entertained. Music, dance, creativity and sport bring you into contact with potential partners. Life is there to be lived, and you are there to be loved. This has the potential to be a sparkling year, and a great year for children too.

There is a sense of being at a crossroads in your relations to groups or a partner now. You are in a unique position to see what kind of progress you have been making in your current relationships, and what options you have for the future. With this bird's eye view, you may wish to let go of some old bonds and establish new.

You are empowered by the following.

This can hardly fail to be a romantic and passionate year. You are drawn deeper and deeper into intimate relations and fiery erotic attraction, and there is nothing for it but to let go and discover the rejuvenation quality of animal passions. If single you will be swept off your feet, if attached, then – if your head is not turned – you will go through heaven and hell because of your attraction.

Certain challenges arise.

If expectations in your relationships are unrealistic, then you will experience disappointment. The antidote is not to ask for what cannot be given, or give your heart to someone who cannot reciprocate. If there is loss,

then it is OK to be sad... indeed sorrow can put you in contact with a collective energy which leads to spiritual renewal.

Love brings frustrations, and it seems that you neither get the affection you desire, nor the approval you need. Keep expectations low – this is a time when you are being tested. Believe in yourself – this is just a stage you are going through to develop strength of character and self-sufficiency.

Rather than repressing the challenging emotions that arise in relationships now, embrace joint responsibility and work on alleviating anxiety.

Some factors help.

You seek depth and intense erotic contact in relationships now and are not prepared to accept superficiality. As you strive to familiarize yourself with the psychological factors behind attraction, you can create a transformation in both your life and the life of loved ones. Relationships that you value will be revitalized, relationships that you don't will be discarded.

There are other major changes affecting relationships and values at this time, and the influences described below will bring opportunities to modify your need for others, and ultimately develop better ways of relating authentically.

Awakening longing

This is a period when many of your relationships undergo subtle change as you strive to realize an inner longing for love and meaningfulness. If you are dissatisfied with current relationships, or simply single, then romantic meetings at this time seem to fulfill your dreams and ideals, but should expectations be unrealistic you will be disappointed. Love at this time opens your heart and dissolves blockages in what is a healing process whatever the outcome of the actual relationship. In reality no one person can satisfy the deep need to merge with something greater that you can feel in this period, but spiritual and artistic pursuits can. This period of romantic confusion stems from a trend that lasts from March 2016 to January 2020 and it ultimately enriches your soul. It can also be that there is some form of sadness in partnership matters, and that this awakens a deep compassion within you. Sometimes there are trends in relationships that you have no control of, but simply have to be accepted. Economically too, there can be circumstances that cannot be controlled.

Good fortune in love

There is a period of success for you both as regards your economy and your relationships from October 2017 to October 2018, and this brings a blossoming of confidence about your attractiveness and value as a person. If you are looking for romance, you will surely find it – especially if you travel to a romantic place. This is a good time for relationships with people from cultures you admire. You are particularly attracted to wise and cultured people who can teach you something. Generally you can afford to expand, spend more and really appreciate what life has to offer. Now is the time to both harvest and enjoy the fruits of efforts that you have made in the past, and to generously share your good fortune with those you love.

The influences described in this section will all have a significant effect on the way you relate to the world. In terms of your material values and matters of love, the most important of all these influences will be:

- a time when you are moved by a deep longing within your heart. Disappointment or difficult circumstances in your love life awaken new dimensions of compassion.
- a time when you can enjoy the good life. Experiences with friends and lovers, especially when traveling or experiencing culture, boost your confidence and self-worth
- a diffident or hesitant attitude to love where the focus is on practicalities.

Sex, work, willpower and assertion

OVERCOMING LIMITATIONS

Nothing is achieved in life without the force and determination to go for what you want. There are battles to be won and obstacles to be overcome, and this means being able to assert yourself, and to mobilize your courage to face challenges and overcome resistance.

With Mars in your birth chart in Capricorn and in the 4th House this relates to your determination to advance your position, overcoming every challenge, and much of your energy is channeled into establishing boundaries and creating a home or family.

As regards personal drive the age of 47 is a year when there is a lot of work to be done, and you throw yourself into it, organizing people and systems. You will probably encounter some trouble with people and the work environment, which it is your duty to solve.

Your energy and will is channeled into being creative. You are willing to take center stage and fight for the projects you hold dear, which can bring creative success. There is also a desire to celebrate life, and social activities, parties and other outgoing activities, which can bring romantic involvement. Children may figure strongly, but they can be troublesome.

This is a year when normal group relations tend to be shaken up, perhaps because you are restless and uncertain about what direction you want to go in. You may have to deal with a troublemaker, but perhaps such a person might inspire you to action.

Certain challenges arise.

Efforts and initiatives are undermined by circumstances that seem beyond your control. This could be because you are no longer inspired by the same old work. Pursuing creative projects brings more satisfaction. In your dealings with others you can be deceived – take care.

There are frustrations whichever way you turn, but ultimately they serve to build up your willpower. Authoritative or dominating men can be a pain, but you should avoid kicking against the pricks. Build up muscle power through determined training.

Some factors help.

By accessing the deep inner forces that have long remained hidden, you discover an amazing surplus of strength to perform superhuman tasks. This is an excellent year for taking a failed enterprise and transforming it. On a psychological level you purge old demons and emerge re-energized.

There are other powerful influences at this time, which bring both challenges to your autonomy and

independence, and opportunities for leadership and self assertion. The influences described below bring out your survival abilities and evoke a fighting spirit that can ultimately empower you.

Developing willpower

During a period that is likely to last from December 2017 to October 2019 there will be many difficulties and challenges that undermine your willpower and confidence in your ability to win through. Encounters with dominating men and male authorities who flaunt their power because of insecurity can put you in the pressure cooker. The workload in your career can be daunting. Sexual problems can suddenly come on the personal agenda. It is at this time – when the going gets tough – that the tough get going. A good place to start is on the body, and fitness training of one sort or another can help build up personal confidence. On the work front, perhaps it is better to be more self-disciplined and to put in longer hours, knowing that this can be a long-term investment for the future. Sexually this is the time to get back to basics, to discuss insecurities, to consult the manual, and in this way untangle the complex emotional issues that affect performance. The structure and training you put in place now will create the foundations for a new future where you can manifest your full strength and power.

Believing you can do it

The period from October 2017 to September 2018 is a time when you are full of courage and enthusiasm, and even if there are delays and setbacks, you plunge on undeterred. There is the spirit of the pioneer infusing your being; you see the distant horizon and spur on your horse to reach it as soon as possible. With such an undaunted spirit, success comes easily for you, and nobody has any desire to stand in your way. You are convinced about what is right – for you and probably for others too. Neither are you afraid to use your persuasive powers to get what you want. This leads to an expansion of your influence and greater leadership prowess. The competitive spirit is aroused; physically this can bring an interest in travel and sports, intellectually you want to learn more, debate, and excel at what you do.

The influences described in this section will bring changes in the way you strive for achievement. Of the many influences affecting your energy, sexuality and assertiveness this year the main areas to be aware of are:

- a time when you come under tremendous pressure that initially undermines your strength. You subsequently develop the determination and willpower to overcome obstacles.
- a time of excitement and adventure when you vigorously expand your horizons and have undaunted confidence in succeeding at what you do.
- a lot of work, and some trouble with colleagues, but a productive year.

Collective trends

PRACTICAL METHODS FOR DEALING WITH ANXIETY

The influences mentioned so far in this analysis have an effect on your psychological evolution and fate which is strictly personal. There are other influences on your life based on your relationship to the collective, which can be just as exciting and stimulating for you, even though they may not evoke dramatic personal change.

Discovering the cracks

In the period December 2016 to September 2018 you are immersed in a power play with forces much greater than you – whether it be something in the environment, involvement with powerful authorities, or with people and institutions that control a great deal of money. There may be a secretive element to your dealings, and it is difficult to know what is really going on. On an inner level too, deep emotions may want to break through to the surface, though it may seem crucial to keep them contained. Under these seismic pressures, cracks appear in the surface of your life. Perhaps you have to ask yourself whether the foundations you are building your professional or family life on are rooted on stable ground? You have a responsibility to investigate the psychological issues that are formative for your character – only in this way can you eliminate unsafe structures and replaced them with something that lasts.

Establishing your originality

Challenges that arise in the period March 2017 to January 2019 are connected with your ability to work with innovative ideas and structures in a constructive manner. It is unlikely that your professional needs will harmonize with a conventional career right now, and the more pressure you experience from authority figures who want you to fit in, the more you are likely to want to break out. It could be satisfying for you to establish a professional niche from which you could contribute to society with some of your unique talents. This is a good time for working with untraditional subjects or on international projects, and you may be in the ideal position to build some kind of consciousness bridge between the old and the new. You may not wish to make too many compromises in regard to the structures that seek to limit your originality, but it is wise to work with the old to establish something new.

Swept along by the undercurrents

This is a period when upheavals in your connections with friends, partners or groups nudge you in a new direction. A reorientation in your relation to others, and to the world in general, forces you to make a decision to abandon a direction which no longer accords with what the future has in store for you, and embrace a new destiny. You gain a greater understanding about how your choices up to now have been conditioned by the past, and you are swept along by social currents beyond your control into new circumstances free from that conditioning. You can get involved with powerful people at this time, and interaction with psychologically aware people evokes a new urgency in creating future conditions for growth. You can also encounter demonic people, whose disturbed psychological state can change your life

views and bring a new relationship to power. This subtle transformation of orientation spans the period March 2016 to November 2020 .

During the age of 47 you are in a phase of your personal evolution during which there is a stronger awareness of your duty to others, and you may be called on to help them in some way. This is the time to learn the basic rules about relating to others - knowing what you have to offer as an individual, but also being receptive to what others can offer you. By toning down your personal ego and working with others to get results, you are putting the finishing touches to an evolutionary process that will enable you to give the best of yourself in your relationships, which is where the challenges of coming years will lie. This is the time to learn how to apply your creative talents practically in the world - to carve out your own workplace in society. This can therefore be a productive period with fruitful cooperation with others.

Seen from another viewpoint, there is a purposeful evolution in your life, and each of the events that arise can be seen as milestones on the journey of your soul. There are some fields of your experience which you are all too familiar with, and perhaps you need to relinquish your attachment to them. Other areas of experience present new and interesting challenges for you soul, and require total immersion.

The primary evolutionary focus in the year is on your professional life in contrast to your domestic security, and intense developments in these areas involve working to define new goals and ambitions and striving for recognition and success. By bravely seizing the opportunities that come your way, you can establish a strong position in society, and in the meantime family life may have to be on standby.

The collective influences described above are very much related to the generation of which you are a part, and opportunities now arise to capitalize on trends that your generation will resonate to. The most important of these are:

- a time when there are dealings with implacable people and institutions, exposing your anxieties about survival in society.
- a time when you need to work with constraints on your originality and build a bridge between the old establishment and the new.
- a time when you interact with powers in the world that are beyond your control, leading to a reorientation of your destiny.

The influences described in this report are based on planetary cycles, transits of the outer planets and progressions of the inner planets in an integrated description which also takes into account the major factors in your birth horoscope. Thousands of factors are taken into consideration, making this report completely unique to you for the next twelve months. Rather than make specific predictions, we have tried to describe how you can make the most out of the many changes that are taking place. By defining what you really want, and going for it, you can weather the storms and currents described in this report and come safely to the destination that you are aiming for. It is in this context that the major events of this year should be seen.

Some of the themes from this year will continue into the next year, and some completely new themes will arise. Looking at the three most important events at the age of 48 you can expect change in the following areas:

A period of emotional purgatory when old bonds and attachments are examined and either transformed or eliminated. Behavior conditioned in childhood is dredged up, dealt with and replaced with more mature behavior in an exhausting transformation process.

Challenges arise that weigh heavily on you emotionally and generally make you feel less secure, especially as regards home and family matters. You need to develop an inner self-sufficiency and avoid immature dependence. That way you can be a rock that others lean on.

These events - both good and bad - can be seen as a treasure chest for the personal journey of your soul. Every event that arises has meaning for you and is a result and consequence of previous actions. If you are

able to see the challenges that arise as opportunities for constructive change, then your growth will be rapid, and you will be able to truly appreciate and enjoy the many positive events that also arise during the course of your year.
