**Dear a,**

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

### **The Significance of your Age**

Your 44th year is characterized by a strong awareness of the limitations imposed by both your personal and professional relationships. You meet resistance to your plans, and this leads you to consider making structural adjustments in your goals. There can be changes in your career, and serious re-evaluations of your emotional commitments. Setbacks are liable to occur, and a patient attitude is essential to overcome the challenges that arise. Challenges now have a lot to do with family circumstances that have been restrictive or repressive, or challenging in other ways. This has led to a certain emotional defensiveness which gives effective protection on the one hand, but stands in the way of harmonious developments later, that could bring a rewarding family life. It pays to soften up. These challenges have a lot to do with a latent insecurity that you feel in relation to authority. This has arisen because of a dominating parental figure who believed the stick was better than the carrot. You have strong ambitions but not enough faith in yourself. Yet in time you will acquire authority, although the trick is to be satisfied with your success rather than driving ever onward. This is a year when you gain considerable insight, but can make hasty judgments.

### **The Challenges Ahead**

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the

challenges that naturally arise during the course of the year.

In this period of your life you are working hard to develop educational and communication skills that will serve you well into the future. This is a challenging task, and there will be times when confidence in your intellectual abilities is low, or when you simply feel the process is too long or too full of setbacks. This is when you have to apply yourself with more determination than ever. Avoid being defensive about what you do not know or cannot do; just plan to improve step by step. These influences started growing around January - 2015 and will ebb out around December - 2017. You will reach your goal, and in the process you will build a valuable network of contacts who appreciate your diligence and application.

In this period of your life there is a major transition process that puts the focus on home-building and family life. For several years it has been important for you to develop your educational and communication skills and increase your reach through travel and networking with others. But now it is crucial to put down roots, and you find yourself thinking back to your own heritage and upbringing with a view to create a nurturing environment for those who are dependant on you. These new influences start growing around December - 2017 and will ebb out around March - 2020. During this time you will have established a very solid base from which to make forays out into the world. But it is early days yet, and right now you may feel ill-prepared. It starts by taking responsibility for the family and working on the home.

### **Opportunities for Success**

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from October - 2017 to November - 2018 when the focus moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

Once you have learned how to capitalize on your unique resources and gain confidence and self-assurance, you need to reach out to others between November - 2018 to December - 2019. This leads to travel and an expansion of your skills educationally. This is a great year to widen your network of contacts. Through increased communication on all levels, you learn how to make sure-footed progress.

### **Crucial Issues This Year**

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 44. Three very important issues that make this year special are:

- You start a new period of mental excellence, expanding your wisdom, knowledge and understanding, meeting mentors who have the skills you need and traveling considerable distances to learn and teach.
- You have the time and the will to mobilize your energy over the long term to produce creative results. This is a great time for physical work, training and building. Good planning and a willing assistant can bring lasting practical results in your life.
- A period when a deep interest in psychological influences in your character is awakened through therapy or other study. People or studies that may have interested you in the past are dropped in favor of a new fascination with secrets and people who have the answers to them.
