Dear Rathika,

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

During the course of your 54th year, you are still in a period of dynamic consciousness growth that sees you experimenting with your life on several fronts. You are open to any changes that bring renewal and excitement, and this can bring international travel and input from cultures very different from your own. This is the time to embrace new technology and surf the wave of change in society, rather than holding on to established tradition. For you and your generation there is a willingness to experiment with the way you are integrated into the work force, and you are inclined to embrace new and revolutionary methods. Your particular way of expressing your uniqueness in this respect is through going your own way as far as education is concerned, and in gaining understanding and insight through travel or contact with cultures very different from your own. At the same time there is a dawning spiritual sensitivity, and activities connected with nature, music or religion can bring inner enrichment. Furthermore this year is a time of emotional rebirth, and your feelings connected with home and family come strongly to the fore. Basically, when your emotions are aroused, you tend to adopt a dour stance and try to bury yourself in your work. Feeling hard done by can evoke guilt in others, and the more responsibility you personally take the better life becomes. Your emotions have an immediate impact on the world, and are a defining element in your life. Now is the time to confront latent emotional issues connected with bonding that can relate back to your childhood, so don't be surprised if this a bit of an emotional roller-coaster year when you are concerned about creating security and a safe base.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you continue working on a new framework for your personal development by defining the path ahead. There are a lot of challenges, delays and obstacles to be overcome, but now you know what you want, and you are prepared to work long and hard to set in motion your new plans. In the past, initiatives tended to dissolve before being put into practice, because you were trying to achieve outdated goals. Now initiatives really kick in and gain traction. These new influences started growing around December - 2017 and will ebb out around March - 2020. You are setting the scene for a whole new epoch of personal development. The time has come; other people need to accept that your greatest responsibility is now to yourself, because unless your life is on a strong footing, and unless you are following your own mission, you cannot be strong for others.

Opportunities for Success

With professional achievements and an increase in status behind you and many career goals achieved, you are ready to capitalize on recent success by consolidating your assets and expanding your influence socially in the period from October - 2017 to November - 2018. Generous friends and mentors smooth your path and give you access to the highest places, and you harvest wisdom and influence at social gatherings.

After a period of expansion and satisfaction in your social life, your search for meaning and understanding goes within, and in the period from November - 2018 to December - 2019 you discover the spiritual riches that can be attained through seclusion and introspection. This is a time when learn how man and cosmos are interconnected, when you feel empathy and solidarity for fellow human beings.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 54. Three very important issues that make this year special are:

- A series of educational or communication challenges undermine your confidence in your abilities. Through mental focus and improvement of skills you rise to the

challenges and become more adept, even if you are initially overcome by worry or dejection.

- A time that reveals the weaknesses in any latent tendency you have to control your environment through power and manipulation. Forces larger than you are take you on a voyage into unknown realms of the unconscious, revealing the universal forces that govern the human condition.

- Unpredictable events raise your adrenal levels and bring out the fighting spirit in the coming months, making you more inclined to take considerable risks. Whilst the samurai spirit is awakened, you may provoke others unnecessarily.
