Dear Krassi,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

As you enter your 20th year you continue the trend from the previous year in which you assert exactly what it is about you that makes you unique. The urge to differentiate yourself from the norm is strong. For you and your generation there is a willingness to experiment with social structures, and you are inclined to embrace revolutionary new ways of grouping with other people. Your particular way of expressing your uniqueness in this respect is through seeking alternative modes of employment and maintaining space and freedom in your daily life at work and at home. You are willing to change work regularly to avoid getting stuck in a rut. At 20, developing your skills and mental talents is paramount. This is a year in which you are absorbed by justice and issues of right and wrong, although there is a tendency to be subjective in your own judgment and a little bit too categorical. You have a humanitarian soul and feel a strong sense of solidarity with your fellow man. Your ideals are strong and unshakeable, especially as regards social matters, and you never compromise these ideals, though you will show flexibility if it means facilitating the evolution of a group or organization. This will reflect itself specifically in your daily working life, where a cheerful and positive approach ensures life-confirming experiences with colleagues. A positive expansion will occur this year in the work environment. Despite the early revolutionary tendencies of the year, you are fully aware of the responsibilities weighing on you as you enter adult life, and you work hard to create a framework for growth into your twenties.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life the major challenges are in connection with home, family and your foundations. This influence started growing around January - 2015 and will ebb out around December - 2017. Many emotional issues come to the fore at this time as your attention is drawn to problems and obstacles at home that you need to work on and improve. Baggage from your early upbringing stands in the way of intimacy, and this is experienced as emotional pressure at home. It seems like the walls are closing in around you, but if you put your mind to it you can make constructive changes in the home environment that will provide you with a stable base for the future. Once you have established strong foundations - and you will - you can proceed to an outgoing and creative phase in your life.

In this period of your life, much has fallen into place in the home and family environment, and there is a sense that you have put down roots and created solid foundations for future growth. A transition now takes place which puts the focus on your creative potential, and you start to ask yourself serious questions about your capabilities, and when you are going to do something concrete about self-expression. These new influences start growing around December - 2017 and will ebb out around March - 2020. You sense the challenge in all areas where you are likely to be judged - children, attracting lovers, performing - and you need to overcome a certain lack of confidence and put your self on the line. To enjoy life to the full you need to give yourself to the full, and recognition comes when you do this without holding back.

Opportunities for Success

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from September - 2016 to October - 2017 when the focus moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

Once you have learned how to capitalize on your unique resources and gain confidence and self-assurance, you need to reach out to others between October -

2017 to November - 2018. This leads to travel and an expansion of your skills educationally. This is a great year to widen your network of contacts. Through increased communication on all levels, you learn how to make sure-footed progress.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 20. Three very important issues that make this year special are:

- A period when your romantic life becomes more intense, erotic and perhaps obsessive as deep anxieties about love and loss are awakened. You eliminate bonds that are not genuine and authentic; you have no time for pretense in love. Intense psychological interaction.
- A time that awakens a longing to use your time on projects that concur with your dreams and spiritual goals. A sense that you can get more out of your work and sexual life inspires you to discover new ways of working and new forms of physical expression.
- A period when those structures in your life which have become ossified and outdated will be marked for demolition. There can be confrontation with implacable authorities. The sooner you abandoned an outdated framework, the quicker you can get on building a new future.
