Dear Malca,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

As you enter your eighties you feel a sense of wholeness and are fully attuned with what your values are, and who you want to share them with. Your inner harmony springs from the relationships that matter, and objects of affection that you have surrounded yourself with. In love you want to be proud - of what you give so warmly, and of the respect you receive from your partner. Your values are creative and meant to celebrate life, love, children and play. Love and longing go hand in hand in your search for the ideal soul mate - if such a person exists. There are spiritual solutions. You keep yourself busy on a mental level, reading, viewing and generally following your interests and chatting with people who matter to you. Still, you are also very aware that nothing lasts for ever. There is a growing awareness of how all things - relationships, material attachments, life itself - are transitory... but you are not prepared to give them up yet.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life the major challenges are in connection with home, family and your foundations. This influence started growing around January - 2015 and will ebb out around December - 2017. Many emotional issues come to the fore at this

time as your attention is drawn to problems and obstacles at home that you need to work on and improve. Baggage from your early upbringing stands in the way of intimacy, and this is experienced as emotional pressure at home. It seems like the walls are closing in around you, but if you put your mind to it you can make constructive changes in the home environment that will provide you with a stable base for the future. Once you have established strong foundations - and you will - you can proceed to an outgoing and creative phase in your life.

In this period of your life, much has fallen into place in the home and family environment, and there is a sense that you have put down roots and created solid foundations for future growth. A transition now takes place which puts the focus on your creative potential, and you start to ask yourself serious questions about your capabilities, and when you are going to do something concrete about self-expression. These new influences start growing around December - 2017 and will ebb out around March - 2020. You sense the challenge in all areas where you are likely to be judged - children, attracting lovers, performing - and you need to overcome a certain lack of confidence and put your self on the line. To enjoy life to the full you need to give yourself to the full, and recognition comes when you do this without holding back.

Opportunities for Success

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from September - 2016 to October - 2017 when the focus moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

Once you have learned how to capitalize on your unique resources and gain confidence and self-assurance, you need to reach out to others between October - 2017 to November - 2018. This leads to travel and an expansion of your skills educationally. This is a great year to widen your network of contacts. Through increased communication on all levels, you learn how to make sure-footed progress.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 80. Three very important issues that make this year special are:

- A time that awakens a new mental sensitivity and interest in the arts, film and all areas of the imagination. It can be difficult to persevere with boring work, studies and other projects at this time as you long for some other kind of stimulation.
- A period when you experience a crisis of belief, possibly triggered by undue pressure from an ideological group or fanatical individual. There is a sense that previously imagined future scenarios are no longer valid for you. This is the time to cast old convictions aside and reinvent your future.
- There is a growing desire for excitement and change, and you are willing to take risks to realize this desire. This can bring changes at work, where you require more space and independence. In your private life there may be a need for more sexual experimentation.
