Dear Loo,

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

As you enter your forties and commence a new decade, you feel a sense of urgency about the future, and realize that a number of readjustments will be inevitable now that you are 40. This is a time when you review your mental skills - your education and communication - and take steps to optimize your intellectual capacity. There is extra focus on your comfort level - both economically and in relationships - and you will need to work harder on your weaknesses and capitalize on your strengths in these areas. You seek depth and authenticity in your love life and relationships. This means not glossing things over, but confronting powerful inner emotions. Intimacy and sexuality are your areas of expertise. Love and longing go hand in hand in your search for the ideal soul mate - if such a person exists. There are spiritual solutions. More importantly, there are a number of factors that seem beyond your control, that threaten to derail the train. This is why this is a good time to step back from more concrete goals and consider your overall mission in the second half of your life. How can you get out of the rut at work and innovate and change? Opportunities for change and transformation should be welcomed rather than resisted. How can you get more emotional depth and meaning into your intimate relationships? For you and your generation there is a search for grand ideals and higher meaning, though it becomes apparent with time that truth is ultimately only relative. Personally you express these ideals in your choice of lifestyle, which is essentially unconventional and non-material, as you are always searching for a direction in life that holds spiritual meaning.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life strategies for consolidating your earning power and getting paid what you are worth begin to succeed, though it can be hard going. Money is in short supply, but now is the time to put in place an economic framework that will give you security well into the future. These new influences started growing around December - 2017 and will ebb out around March - 2020. At the current time you know what your talents are, but you may be unsure whether you can live from them. You can. But you still need to conserve your resources and economize. Part of the key to prosperity is self-worth, and whilst success is as yet unproven you can facilitate the process by being restrained in your economic demands until you have established a firm foundation.

Opportunities for Success

An awareness of the spiritual forces behind your individual evolution has enriched your understanding of your self and the universe, and this now ushers in a period from November - 2018 to December - 2019 when you are ready to emerge from seclusion and apply this inner wisdom more directly in your dealings with others. A new confidence is reflected by a more forceful personal presence in which your ideas and opinions pave the way for personal expansion.

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from December - 2019 to December - 2020 when the focus moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 40. Three very important issues that make this year special are:

- You experience a steroid boost that gives you the strength and courage to fight for what you want. Putting softer considerations aside you take a risk to expand your

territory, traveling afar and meeting exciting people. You give yourself fully to your desires, both intellectually and bodily.

- You start a new period of mental excellence, expanding your wisdom, knowledge and understanding, meeting mentors who have the skills you need and traveling considerable distances to learn and teach.
- A positive period of recognition and acclaim arises at this time as beneficial influences converge to make you feel good about yourself and confident about your prospects. This is the time to expand your horizons intellectually and through travel, and propagate your ideas.
