Dear Abhishiktha,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

During the course of your 28th year, there is the sense that you have achieved a lot, been through a lot, yet the answers are not to be found in these achievements and experiences. It is difficult to hold on to the structures you have created, and you are not even sure you want to. You may ask yourself just how much you have been conditioned to go along the path you have taken, and you may feel that some of the steam has gone out of the machine. A positive transformation is called for at this time, and it is wise to take a hard look at what it is in your life you are tired of, and eliminate it. This can be quite an exhausting psychological process, and there is a tendency to go to emotional extremes. Some anxieties are connected with a generational influence that relates to a range of taboo subjects, not least sexuality. At this time you may wish to examine emotional or sexual habits that may be too extreme or manipulative. More specifically you become aware of intangible anxiety that has its roots in your relation to the cosmos and to your beliefs - or absence of beliefs. Imagined threats have to be seen as the aggregation of spiritual forces that are being denied.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you continue working on a new framework for your personal development by defining the path ahead. There are a lot of challenges, delays and obstacles to be overcome, but now you know what you want, and you are prepared to work long and hard to set in motion your new plans. In the past, initiatives tended to dissolve before being put into practice, because you were trying to achieve outdated goals. Now initiatives really kick in and gain traction. These new influences started growing around January - 2015 and will ebb out around December - 2017. You are setting the scene for a whole new epoch of personal development. The time has come; other people need to accept that your greatest responsibility is now to yourself, because unless your life is on a strong footing, and unless you are following your own mission, you cannot be strong for others.

In this period of your life you feel that you have set in motion a new plan for your life. The framework is in place, your intentions have been made clear, and when you examine your feelings, you know you are on the right track. Now you enter a transition phase that requires concrete results. You need to consolidate your position and nurture your resources, so that you can actually achieve the new goals you have set yourself. This new influence starts growing around December - 2017 and will ebb out around March - 2020. In this coming period you will be crucially aware of a shortage of funds, and this is an ideal motivation for increasing your earning power. You need to build the structural framework for future prosperity, and this has to start with economy and restraint. Learning about saving and budgeting are key issues, but it is also important for you not to underestimate your potential worth.

Opportunities for Success

After a period of expansion and satisfaction in your social life, your search for meaning and understanding goes within, and in the period from October - 2017 to November - 2018 you discover the spiritual riches that can be attained through seclusion and introspection. This is a time when learn how man and cosmos are interconnected, when you feel empathy and solidarity for fellow human beings.

An awareness of the spiritual forces behind your individual evolution has enriched your understanding of your self and the universe, and this now ushers in a period from November - 2018 to December - 2019 when you are ready to emerge from seclusion and apply this inner wisdom more directly in your dealings with others. A new confidence is reflected by a more forceful personal presence in which your ideas and opinions pave the way for personal expansion.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 28. Three very important issues that make this year special are:

- A series of educational or communication challenges undermine your confidence in your abilities. Through mental focus and improvement of skills you rise to the challenges and become more adept, even if you are initially overcome by worry or dejection.
- You enter a phase when there are challenges in establishing your position in your professional and personal life. The existing structures, or memories of negative experience, can limit your faith in your capabilities. Be realistic, but allow your natural optimism to win through.
- You may feel inclined to indulge a need for liberation and change, but reality steps in your path and blocks actions that may be tinged with irresponsibility. Innovation and change can take place, but only with patient planning and a respect for the facts on the ground.
