Dear Y,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

During the course of your 54th year, you are still in a period of dynamic consciousness growth that sees you experimenting with your life on several fronts. You are open to any changes that bring renewal and excitement, and this can bring international travel and input from cultures very different from your own. This is the time to embrace new technology and surf the wave of change in society, rather than holding on to established tradition. For you and your generation there is a willingness to experiment with the way you are integrated into the work force, and you are inclined to embrace new and revolutionary methods. Your particular way of expressing your uniqueness in this respect is through an interest in alternative thinking, which is manifested in unusual educational interests and surprising methods of communication. For you travel is a constant refresher. At the same time there is a dawning spiritual sensitivity, and activities connected with nature, music or religion can bring inner enrichment. Furthermore this year is a time of emotional rebirth, and your feelings connected with home and family come strongly to the fore. Basically, when your emotions are aroused, you seek support in your relationships, which may mean that they swing dangerously according to your mood. Nevertheless, the spirit of compromise in you is so strong, that harmony is the norm. Early family experiences profoundly affected you emotionally, and bonds to the mother and family generally are still extremely dominant. Now is the time to confront latent emotional issues connected with bonding that can relate back to your childhood, so don't be surprised if this a bit of an emotional roller-coaster year when you are concerned about creating security and a safe base.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period the major challenges lie in your working life, which probably needs to be made more efficient through streamlining working methods and improving interaction with colleagues. Health-wise too, this is an excellent time for working on self-improvement. This influence started growing around January - 2015 and will ebb out around December - 2017. You will probably encounter considerable frustration in your dealings with people in the working environment, and this process is designed to enhance your ability to compromise and to fit in for the good of the whole. To be happy at work now you need to work hard and have a plan. You do not have to have a subordinate role, if you are willing to shoulder responsibility. But you do not have to stick at a job which is beneath you either. Establish your credentials, work hard and advance.

In this period of your life there is a transition in your dealings with people, as you move from interacting with people on a practical level in connection with your work and daily life, to actually learning how to deal with partners on a one to one basis. This new influence starts growing around December - 2017 and will ebb out around March - 2020. It is the beginning of an outgoing epoch in your life; the big test comes in how you live up to partnership responsibilities. There are major challenges, demands are made on you, and you have to on the one hand resist giving others the blame for your issues, whilst on the other you need to establish limits to what you are prepared to accept in a relationship. You have to work at partnership now and make a commitment, though it is no use expending any more time on hopeless relationships. What you start now can last a long time.

Opportunities for Success

Having developed your education and communication skills, and widened your network of contacts through travel, there is an urge to expand your influence and potential on the home front between September - 2016 and October - 2017. This brings insight and good fortune connected with property and family. At this time you broaden your emotional foundations, partly because you gain understanding of the influence of your upbringing, and partly because you are curious to learn more

about how to create a nurturing and stimulating environment for yourself and those near to you.

After having built up comfortable circumstances in your domestic life, what is important for you between October - 2017 and November - 2018 is to appreciate the fruits of having a satisfying base, so that you can express yourself through creative activity and enjoy the art of living. Expansion and satisfaction come from living life to the full - through sport, festivity, love, children and romance. This is the time to fully be yourself without reservations or doubt. Larger than life characters will show you how through encouraging you to celebrate existence.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 54. Three very important issues that make this year special are:

- Challenges arise which at first powerfully affect your self confidence, as successes are few and far between and recognition and respect lacking. By working on building your character and patiently shouldering responsibility, you establish a position of confidence.
- A period that brings a crisis of faith as many of your beliefs are taken up, examined and found wanting. Intellectually dominating people try to bend you to their will, but you reject inauthentic beliefs and outworn ideas and replace them with a new vision for the future.
- A time that evokes a sense of confusion about what you want to do. Decisiveness is undermined, energy is dissipated. Sexually there can be listlessness and a longing for more magic. Above all it is difficult to be inspired by routine work. Longing leads to a new creativity.
