The Significance of your Age

The age of 29 is a time when much of what you have achieved comes up for revision. Life has come full circle, lessons have been learned, experiences harvested. The big question now is: how much of your achievement was geared to satisfying the demands of parents and society, however unconsciously, and how much is an expression of who you are as a unique individual? You have a unique perspective on your life now, and you can gain an insight and understanding that will enable you stake out a future for yourself. The fulfillment that you have worked so hard for in your twenties may still be eluding you, and if this is the case, now is the time to define what you want to achieve in your life, and not what other people want you to achieve. What you decide now is crucial, and will form the framework for your thirties. Life is too short to spend even one more year going on a path that does not satisfy you. Challenges now have a lot to do with your motivation to attain a position of authority in society. Many setbacks pave the path to success, and as the years go by more responsibility is placed on your shoulders. From being sensitive or even resentful of authorities, you learn what it means to protect the institutions that make civil society a blessing. These challenges have a lot to do with a latent insecurity that you feel about your assets, both physically in connection with your appearance, and materially. Poverty-thinking has its roots in events in childhood that undermined your self worth, and learning to believe in yourself and your talents is the key to prosperity and success now. Don't be afraid to radically transform your life, whatever changes now realigns you with your fate, and brings the best conditions for future growth.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you continue working on a new framework for your personal development by defining the path ahead. There are a lot of challenges, delays and obstacles to be overcome, but now you know what you want, and you are prepared to work long and hard to set in motion your new plans. In the past, initiatives tended to dissolve before being put into practice, because you were trying to achieve outdated goals. Now initiatives really kick in and gain traction. These new influences started growing around January - 2015 and will ebb out around December - 2017. You are setting the scene for a whole new epoch of personal development. The time has come; other people need to accept that your greatest responsibility is now to yourself, because unless your life is on a strong footing, and unless you are following your own mission, you cannot be strong for others.

In this period of your life you feel that you have set in motion a new plan for your life. The framework is in place, your intentions have been made clear, and when you examine your feelings, you know you are on the right track. Now you enter a transition phase that requires concrete results. You need to consolidate your position and nurture your resources, so that you can actually achieve the new goals you have set yourself. This new influence starts growing around December - 2017 and will ebb out around March - 2020. In this coming period you will be crucially aware of a shortage of funds, and this is an ideal motivation for increasing your earning power. You need to build the structural framework for future prosperity, and this has to start with economy and restraint. Learning about saving and budgeting are key issues, but it is also important for you not to underestimate your potential worth.

Opportunities for Success

After a period of expansion and satisfaction in your social life, your search for meaning and understanding goes within, and in the period from October - 2017 to November - 2018 you discover the spiritual riches that can be attained through seclusion and introspection. This is a time when learn how man and cosmos are

interconnected, when you feel empathy and solidarity for fellow human beings.

An awareness of the spiritual forces behind your individual evolution has enriched your understanding of your self and the universe, and this now ushers in a period from November - 2018 to December - 2019 when you are ready to emerge from seclusion and apply this inner wisdom more directly in your dealings with others. A new confidence is reflected by a more forceful personal presence in which your ideas and opinions pave the way for personal expansion.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 29. Three very important issues that make this year special are:

- You experience setbacks and trials of endurance when trying to achieve your goals - particularly in your dealings with male authorities. By steeling your will to overcome these challenges, you develop the necessary muscle to win through with your agenda.
- There is structural change, which affects aspects of your professional and personal life that have grown rigid and inimical to growth. The time has come to create more space and freedom, liberating yourself from sterile duties and building an inspiring future.
- You have reached a milestone when the habits and structures you have build up in the past can no longer function in the future that is dawning. Restructuring is necessary. You have a duty to pursue your own mission in life, rather than living up to the expectations of others.
