Report for August 16, 2017 to August 16, 2018

Dear Mary Catherine,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

You are in full swing during the course of your 62nd year making changes in your life to accord with your vision of the future. You are not interested in being pigeonholed by the system - on the contrary you feel that you cannot waste this opportunity to pursue interests that are intensely personal and unique to you. For you and your generation there is a willingness to experiment with family structure and belonging, and you are inclined to form untraditional family groups in unusual settings. Your particular way of expressing your uniqueness in this respect is through surrendering yourself to the maelstrom of thoughts and feelings that take place in an unstructured cosmos where humans are trying to gain a foothold. There is a sense that you have never had quite as much freedom to decide the future as you have now, and you can make the most of it by breaking out of the structures at work and home that prevent you from spreading your wings. This is not a time for building up and consolidating - it is rather a time to experiment with different lifestyles that you can build on later.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you are focused on developing your creative skills and

displaying the fruit of hard-working efforts to express yourself. This influence started growing around January - 2015 and will ebb out around December - 2017. Overcoming reticence and concern about whether what you produce is good enough is a major issue. There is considerable sensitivity about everything which is a reflection of who you are - your children, your love life and your ability to shine in social gatherings. In brief your ability to enjoy the art of living. If you cannot achieve spontaneity and be carefree, do not worry. What is needed is committed application to activities that interest you. Repeated failure always paves the way to success if you cultivate the virtue of perseverance.

In this period of your life you are searching for ways to apply your creative skills in practice. You have been working hard to overcome blockages in self-expression and to acquire the confidence to put yourself and your creativity on the line. A transition is now taking place that requires committed cooperation with others to put your skills to good use. This new influence starts growing around December - 2017 and will ebb out around March - 2020. It is no longer so much about you, but about how you integrate with others and offer your services for the benefit of the whole. In this process you will encounter challenges at work and with colleagues, which test your humility and willingness to serve. It is good training. This is also a time to focus on your body, which, if it is to serve you well, needs to be nurtured with healthy daily habits.

Opportunities for Success

Once you have learned how to capitalize on your unique resources and gain confidence and self-assurance, you need to reach out to others between September - 2016 to October - 2017. This leads to travel and an expansion of your skills educationally. This is a great year to widen your network of contacts. Through increased communication on all levels, you learn how to make sure-footed progress.

Having developed your education and communication skills, and widened your network of contacts through travel, there is an urge to expand your influence and potential on the home front between October - 2017 and November - 2018. This brings insight and good fortune connected with property and family. At this time you broaden your emotional foundations, partly because you gain understanding of the influence of your upbringing, and partly because you are curious to learn more about how to create a nurturing and stimulating environment for yourself and those near to you.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 62. Three very important issues that make this year special are:

- Your belief in yourself, your plans and your future runs into a major obstacle as the forces of the establishment stand in your path and demand a far more realistic assessment of what is possible. This is the time to readjust and redefine your goals for the future.
- There are mental challenges ahead, which - though you may at first doubt your abilities - you meet head on and overcome. Through the application of your powers of concentration, you build up proficiency in particular areas which stand you in good stead for the future.
- You feel you can comfortably take on more work and responsibility and this gives you added weight and influence. There is a growing confidence in your capabilities, which reflects itself in a willingness to live out your ambitions, not dramatically, but through careful planning.
