Our lives are formed from the decisions we make. Read on and prepare yourself for a great journey...

The Significance of your Age

As you enter your 67th year there is a certain longing for something that is difficult to formulate or attain. This could be described as a spiritual need, or at least an awareness that the material promises that life dangles in front of you are not enough to deliver satisfaction. For you and your generation there is an idealization of relationships, with a predisposition to feel longing and dissatisfaction through unrealistic expectations. Personally you express ideals in this connection through seeking out friends and forming allegiances to groups that embrace creative, alternative or spiritual views. This is a year of spiritual growth, but often this growth comes through surrender to circumstances that are beyond your powers to alter. Yet this can be an extremely inspiring time, especially if you travel and receive inspiration from different cultures, or simply encounter wise people who can lift up your spirit.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you continue working on a new framework for your personal development by defining the path ahead. There are a lot of challenges, delays and obstacles to be overcome, but now you know what you want, and you

are prepared to work long and hard to set in motion your new plans. In the past, initiatives tended to dissolve before being put into practice, because you were trying to achieve outdated goals. Now initiatives really kick in and gain traction. These new influences started growing around January - 2015 and will ebb out around December - 2017. You are setting the scene for a whole new epoch of personal development. The time has come; other people need to accept that your greatest responsibility is now to yourself, because unless your life is on a strong footing, and unless you are following your own mission, you cannot be strong for others.

In this period of your life you feel that you have set in motion a new plan for your life. The framework is in place, your intentions have been made clear, and when you examine your feelings, you know you are on the right track. Now you enter a transition phase that requires concrete results. You need to consolidate your position and nurture your resources, so that you can actually achieve the new goals you have set yourself. This new influence starts growing around December - 2017 and will ebb out around March - 2020. In this coming period you will be crucially aware of a shortage of funds, and this is an ideal motivation for increasing your earning power. You need to build the structural framework for future prosperity, and this has to start with economy and restraint. Learning about saving and budgeting are key issues, but it is also important for you not to underestimate your potential worth.

Opportunities for Success

After a period of expansion and satisfaction in your social life, your search for meaning and understanding goes within, and in the period from October - 2017 to November - 2018 you discover the spiritual riches that can be attained through seclusion and introspection. This is a time when learn how man and cosmos are interconnected, when you feel empathy and solidarity for fellow human beings.

An awareness of the spiritual forces behind your individual evolution has enriched your understanding of your self and the universe, and this now ushers in a period from November - 2018 to December - 2019 when you are ready to emerge from seclusion and apply this inner wisdom more directly in your dealings with others. A new confidence is reflected by a more forceful personal presence in which your ideas and opinions pave the way for personal expansion.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that

present themselves, the stage is set for a series of developments and opportunities during the age of 67. Three very important issues that make this year special are:

- A series of educational or communication challenges undermine your confidence in your abilities. Through mental focus and improvement of skills you rise to the challenges and become more adept, even if you are initially overcome by worry or dejection.
- You are challenged to work with the limitations that the establishment imposes on your own originality and to build a bridge between the old and the new. The test is to be able to present your take on life in a way that is digestible to those limited by traditional thought.
- A period that brings an examination of the dreams and illusions you have embraced over the years to explain the meaning of your life in the greater scheme of things. You no longer allow yourself the luxury of escapism, and eliminate false ideas that you have been addicted to.
