Dear Jytte,

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

During the course of your 54th year, you are still in a period of dynamic consciousness growth that sees you experimenting with your life on several fronts. You are open to any changes that bring renewal and excitement, and this can bring international travel and input from cultures very different from your own. This is the time to embrace new technology and surf the wave of change in society, rather than holding on to established tradition. For you and your generation there is a willingness to experiment with the way you are integrated into the work force, and you are inclined to embrace new and revolutionary methods. Your particular way of expressing your uniqueness in this respect is through your choice of friends and allegiances. You embrace outsiders in society as a healthy alternative to the stranglehold convention has on the human spirit. At the same time there is a dawning spiritual sensitivity, and activities connected with nature, music or religion can bring inner enrichment. Furthermore this year is a time of emotional rebirth, and your feelings connected with home and family come strongly to the fore. Basically, when your emotions are aroused, you tend to reach for the moral high ground and cultivate a sense of righteousness, which may put others in the wrong, although at other times you are open and generous. You invest feelings heavily in your material life, financial security and body care, which is the area you feel most sensitive about. Now is the time to confront latent emotional issues connected with bonding that can relate back to your childhood, so don't be surprised if this a bit of an emotional roller-coaster year when you are concerned about creating security and a safe base.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life strategies for consolidating your earning power and getting paid what you are worth begin to succeed, though it can be hard going. Money is in short supply, but now is the time to put in place an economic framework that will give you security well into the future. These new influences started growing around January - 2015 and will ebb out around December - 2017. At the current time you know what your talents are, but you may be unsure whether you can live from them. You can. But you still need to conserve your resources and economize. Part of the key to prosperity is self-worth, and whilst success is as yet unproven you can facilitate the process by being restrained in your economic demands until you have established a firm foundation.

In this period of your life the focus changes from establishing security and economic stability to a more outgoing attitude that brings you into contact with people through travel and educational initiatives. These new influences start growing around December - 2017 and will ebb out around March - 2020. You become aware of areas in your intellectual development that need improvement, and the antidote to this is study. This is a long-term process of acquiring new mental skills that will serve you well, especially professionally, in the future. Initially you may be uncertain or shy, but the time demands overcoming inhibitions and reaching out to network with other people via all methods of communication. It is now that you develop the antennae that enable you to receive and broadcast knowledge.

Opportunities for Success

An awareness of the spiritual forces behind your individual evolution has enriched your understanding of your self and the universe, and this now ushers in a period from October - 2017 to November - 2018 when you are ready to emerge from seclusion and apply this inner wisdom more directly in your dealings with others. A new confidence is reflected by a more forceful personal presence in which your ideas and opinions pave the way for personal expansion.

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from November - 2018 to December - 2019 when the focus

moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 54. Three very important issues that make this year special are:

- A time that awakens a longing in your heart for a deeper experience of love. No one person can live up to these expectations, but a developing interest in the arts or in spiritual values can awaken a new, deeper and more compassionate approach. Love may require some sacrifice.
- A positive period of recognition and acclaim arises at this time as beneficial influences converge to make you feel good about yourself and confident about your prospects. This is the time to expand your horizons intellectually and through travel, and propagate your ideas.
- You experience a boost to your imaginative powers, which can bring wonderful inspiration to you musically, artistically or spiritually. However there are no guarantees whatsoever that what you dream will manifest materially; therefore it is wise to remain as grounded as possible.
