**Report for December 29, 2017 to December 29, 2018**

**Dear Nitesh,**

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

### **The Significance of your Age**

During your 22nd year you experience the first major challenges and, at times, setbacks in establishing your professional credentials. How you tackle obstacles now will determine future success. When the going gets tough, the tough get going, and this year is all about perseverance and self-discipline. Your attitude to authorities at this time is crucial... much depends on how you experienced parental discipline as a child. By making an effort now and over the next two years, you build the framework for your future career. Challenges now have a lot to do with dealing with long term issues of dissolution, chaos or suffering in the society in which you live. Wise beyond your years, you are witness to the eternal truth that everything dissolves with time, and this in turn can undermine your will to build things up. The responsibility you feel needs to be channeled into active compassion. These challenges have a lot to do with a latent insecurity that you feel about your mental abilities. Problematic communication with siblings and people at school early in your life, undermine confidence and effect educational performance later on. Yet study and intellectual discipline bring stronger and stronger results as you get older.

### **The Challenges Ahead**

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you continue working on a new framework for your personal development by defining the path ahead. There are a lot of challenges, delays and obstacles to be overcome, but now you know what you want, and you are prepared to work long and hard to set in motion your new plans. In the past, initiatives tended to dissolve before being put into practice, because you were trying to achieve outdated goals. Now initiatives really kick in and gain traction. These new influences started growing around December - 2017 and will ebb out around March - 2020. You are setting the scene for a whole new epoch of personal development. The time has come; other people need to accept that your greatest responsibility is now to yourself, because unless your life is on a strong footing, and unless you are following your own mission, you cannot be strong for others.

### **Opportunities for Success**

With professional achievements and an increase in status behind you and many career goals achieved, you are ready to capitalize on recent success by consolidating your assets and expanding your influence socially in the period from October - 2017 to November - 2018. Generous friends and mentors smooth your path and give you access to the highest places, and you harvest wisdom and influence at social gatherings.

After a period of expansion and satisfaction in your social life, your search for meaning and understanding goes within, and in the period from November - 2018 to December - 2019 you discover the spiritual riches that can be attained through seclusion and introspection. This is a time when learn how man and cosmos are interconnected, when you feel empathy and solidarity for fellow human beings.

### **Crucial Issues This Year**

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 22. Three very important issues that make this year special are:

- There are daunting challenges ahead which initially undermine your self confidence and belief in your capabilities. Progress is slow or non-existent as obstacles arise at every turn. Through concerted effort and perseverance you prove to yourself that you can do it.
- A period when you examine the structural component of your work and ambitions and create reform. Powerful organizations are reshuffled and you abandon edifices that no longer accord with your long-term goals.

- You enter an exciting and stimulating period which radically extends your horizons. This can bring long-distance travels and contact with alternative cultures, and it can also bring new intellectual interests of a non-conformist nature.
