Dear Audrey,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

During your 53rd year you are very sensitive to the generational factors of your birth period, and there can be far-reaching changes that bring many opportunities if you are willing to embrace the future and let go of the past. Your visionary capacities now peak, and you are able to transcend your normal life structure and enter new realms of the imagination. There is a kind of global consciousness that pervades your being, and you are extremely sensitive to, and motivated by, the needs and sufferings of others. For you and your generation there is a fascination with sexuality and emotional taboos, and a longing to merge on a very deep level. You express ideals in this connection through your mental interests, which err on the side of the artistic or musical, as you long for magic and poetry in communication. This is also a period that can bring travel to exotic lands or contact with exotic people. You are willing to take a risk to experience something new, and you want to be involved with people who get together with a shared vision. This is a wonderful time to experiment and innovate.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life the major challenges are in connection with home, family

and your foundations. This influence started growing around January - 2015 and will ebb out around December - 2017. Many emotional issues come to the fore at this time as your attention is drawn to problems and obstacles at home that you need to work on and improve. Baggage from your early upbringing stands in the way of intimacy, and this is experienced as emotional pressure at home. It seems like the walls are closing in around you, but if you put your mind to it you can make constructive changes in the home environment that will provide you with a stable base for the future. Once you have established strong foundations - and you will - you can proceed to an outgoing and creative phase in your life.

In this period of your life, much has fallen into place in the home and family environment, and there is a sense that you have put down roots and created solid foundations for future growth. A transition now takes place which puts the focus on your creative potential, and you start to ask yourself serious questions about your capabilities, and when you are going to do something concrete about self-expression. These new influences start growing around December - 2017 and will ebb out around March - 2020. You sense the challenge in all areas where you are likely to be judged - children, attracting lovers, performing - and you need to overcome a certain lack of confidence and put your self on the line. To enjoy life to the full you need to give yourself to the full, and recognition comes when you do this without holding back.

Opportunities for Success

Having gained tremendous insight into the direction your life in the period, a new period is ushered in from September - 2016 to October - 2017 when the focus moves to your earning capacity. You gain a better understanding as to what it takes to strengthen your economy, and what assets you need to develop. This understanding leads to increased personal resources and a broadening of your economic base, which will provide the foundation for increased growth.

Once you have learned how to capitalize on your unique resources and gain confidence and self-assurance, you need to reach out to others between October - 2017 to November - 2018. This leads to travel and an expansion of your skills educationally. This is a great year to widen your network of contacts. Through increased communication on all levels, you learn how to make sure-footed progress.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities

during the age of 53. Three very important issues that make this year special are:

- A time that sees you getting swept up by a way of euphoria or inspiration in connection with innovation and change. This is a time when you aspire to higher consciousness but tend to do so in a rather extreme way, which can bring sudden dissolution of an established situation.
- Your heart is opened and there is a growing desire for both romantic satisfaction and material comfort. Appetites are strong - so strong that they can lead you astray. Ethical principles and moral consideration tend to recede into the background when desires rule.
- You experience a boost to your imaginative powers, which can bring wonderful inspiration to you musically, artistically or spiritually. However there are no guarantees whatsoever that what you dream will manifest materially; therefore it is wise to remain as grounded as possible.
