Report for August 14, 2017 to August 14, 2018

Dear madhumitha,

Thank you for ordering your Year Ahead report, which I hope will help you to understand the harmony between yourself and the universe and enable you to initiate the changes you want in life.

Our lives are formed from the decisions we make. Knowing when to accept an invitation, or call someone you are attracted to, or accept that new career opportunity that has come your way, can mean the difference between extraordinary success and failure. Read on and prepare yourself for a great journey...

The Significance of your Age

At the age of 27 you feel a deep connection to your soul, and - perhaps for the first time - there is a sense of emotional maturity, a circle completed. With emotional currents running so deep, you are naturally confronted with the ghosts of the past... your emotional inheritance. This awakens your own paternal/maternal drives as the urge to care for a family in your own unique way makes itself felt. You do what you can this year to create a secure environment, a cozy home, and a contented family. Basically, when your emotions are aroused, you strive to maintain the status quo as a symbol of stability. Financial and physical security are paramount as a bulwark against unforeseen change. Emotions tend to be channeled into your ambitions and career, which is part of your parental conditioning. You are motivated to satisfy collective needs. It is during the course of this year that you get a sense of your destiny, and to a certain extent you are torn between the pull of the past and your family inheritance, and the pull of the future. Nevertheless, a buoyant optimism gives you the belief that the future will be good for you, and you are ready to broadcast your convictions to the world and widen your horizons.

The Challenges Ahead

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life you are focused on developing your creative skills and displaying the fruit of hard-working efforts to express yourself. This influence started growing around January - 2015 and will ebb out around December - 2017. Overcoming reticence and concern about whether what you produce is good enough is a major issue. There is considerable sensitivity about everything which is a reflection of who you are - your children, your love life and your ability to shine in social gatherings. In brief your ability to enjoy the art of living. If you cannot achieve spontaneity and be carefree, do not worry. What is needed is committed application to activities that interest you. Repeated failure always paves the way to success if you cultivate the virtue of perseverance.

In this period of your life you are searching for ways to apply your creative skills in practice. You have been working hard to overcome blockages in self-expression and to acquire the confidence to put yourself and your creativity on the line. A transition is now taking place that requires committed cooperation with others to put your skills to good use. This new influence starts growing around December - 2017 and will ebb out around March - 2020. It is no longer so much about you, but about how you integrate with others and offer your services for the benefit of the whole. In this process you will encounter challenges at work and with colleagues, which test your humility and willingness to serve. It is good training. This is also a time to focus on your body, which, if it is to serve you well, needs to be nurtured with healthy daily habits.

Opportunities for Success

Once you have learned how to capitalize on your unique resources and gain confidence and self-assurance, you need to reach out to others between September - 2016 to October - 2017. This leads to travel and an expansion of your skills educationally. This is a great year to widen your network of contacts. Through increased communication on all levels, you learn how to make sure-footed progress.

Having developed your education and communication skills, and widened your network of contacts through travel, there is an urge to expand your influence and potential on the home front between October - 2017 and November - 2018. This brings insight and good fortune connected with property and family. At this time you broaden your emotional foundations, partly because you gain understanding of the influence of your upbringing, and partly because you are curious to learn more about how to create a nurturing and stimulating environment for yourself and those near to you.

Crucial Issues This Year

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 27. Three very important issues that make this year special are:

- A period when you are put under considerable psychological pressure and there may be power battles too, but this only serves to awaken the samurai spirit within you. This leads to a new recharged sexual life and a positive transformation of your work situation.
- A period when the frameworks that you have relied on for so long are undermined and the edifice falls. It is a time to abandon outdated power structures and to build up new foundations from scratch. There can be power struggles, and you find strength by connecting to a deep inner survival need.
- A period when a deep interest in psychological influences in your character is awakened through therapy or other study. People or studies that may have interested you in the past are dropped in favor of a new fascination with secrets and people who have the answers to them.
